50 CENTS PER MONTH

CHINA GIVES EDICT FOR LIBERTY

Grants Constitutional Rule and
Other Demands of the
Republicans

PARDON TO ALL REBELS IS GRANTED BY EDICT

Government Apologizes for
Failure to Sooner Bow to
Will of the People

SHANGHAI, China, Oct. 30.—
Wireless messages from foreign
warships anchored off the city to-
day say the imperial troops are
burning Hankow.

Confirmation of the reports that
the imperial troops had recaptured
Hankow from the rebels, preceded
the reports of the city's burning.
Strategists here think the rebels
abandoned the city after heavy
losses, finding it difficult to hold.
Wireless dispatches from the bat-
tleships say that after the imper-
ialists entered the city they slaugh-
tered thousands of unarmed non-
combatants. It is feared some of
the European residents may have
suffered in the city's sacking.

PEKIN, Oct. 30.—The Chinese im-
perial government today issued the
expected edict granting what amounts
to constitutional rule in China. It
is also reported as making huge offers
to foreign governments for aid in up-
holding the present administration.

The edict issued provides for a par-
liament, a revision of the present in-
effective constitution, the substitu-
tion of civil for military measures in
maintaining order, the cabinet's re-
sponsibility to parliament, and for a
great curtailment of the emperor's
power.

Today's edict apologizes for the
government's failure to bow sooner
to the people's will, promises to ex-
clude the nobility from the cabinet,
and extends free pardon to all rebels.
Battle Was Desperate

More than 500 rebels were killed
and thousands wounded in last Fri-
day's fight. Rev. A. H. Kepler, an
American, was among those wounded
during the battle and is in a critical
condition. He was struck in the neck
by a bullet while watching the fight
from a roof. There was no intention
apparently to assault the missionary,
whose wound was received from a
stray bullet.

CANTON, Oct. 30.—Guns of the
thousands of revolutionists who have
declared against the Manchu reign,
are leveled on this city from their
entrenchments in the north. A battle
is expected momentarily. There is lit-
tle doubt but that the rebels will car-
ry the day, as all the imperial troops,
save the Manchus and four thousand
reserves, have joined the revolution-
ists.

REPUBLICANS LIKELY TO GAIN ALL THEIR DEMANDS

LONDON, Oct. 30.—Peace looms
near in the Chinese revolution and
the republicans are likely to gain
their demand for the overthrow of
imperial rule, according to dispatches
received here last night from Peking.

The messages say that the chiefs
of the Manchu dynasty have surren-
dered to the demands of the national
assembly and the army league. That
a royal edict to that effect will be
issued immediately is the confident
belief of the leaders of the assembly
and the league.

The officials of the dynasty have
summoned Yuan Shih Kai to come to
Peking at once. The throne bestowed
upon him several days ago almost
dictatorial powers, placing him in su-
preme command of the imperial army
and navy.

The belief obtains in diplomatic
circles that he has used his influence
with the leading men of Peking to
work for a cessation of the revolution
by arranging an armistice with the
rebel generals, with a view to
granting the demands of the Republi-
cans for a progressive form of gov-
ernment.

POLICE MAY BE ON THE TRAIL OF DYNAMITER

SANTA BARBARA, Oct. 30.—Rail-
road detectives are on the trail of the
man who stuffed the frogs of a switch
at Elwood station Thursday night
with sticks of dynamite. When they
land him they also will have the party
who attempted to blow up El Capitan
bridge, a few hours before President
Taft passed over it recently on a spe-
cial.

A good description was given of the
officers today of a suspicious charac-
ter, seen near Elwood on Thursday.
The man bears out the description of
the stranger seen near El Capitan be-
fore Track Walker Gomez frustrated the
dynamite plot. The suspect is
known to have a grievance against a
Southern Pacific employee.

Woman Aviator and Two Others Fly in Balloon

REDLANDS, Cal., Oct. 30.—
With Los Angeles as their goal,
George Garrison, president of the
Aeronautical Society, aviator
Frank Champion and Myrtle Den-
nison, the first woman aviator to
receive a California aviator pilot's
license, cut the balloon "All Amer-
ica" No. 2, from its moorings
and started eastward. The bal-
loon arose quickly and soon be-
came a mere air speck. It is es-
timated the huge craft ascended
7500 feet before it struck an air
current to send it on its way.

WERE FORCED TO DESCEND.
HIGHLAND, Cal., Oct. 30.—After
circling this city for more
than an hour the balloon "All Amer-
ica" descended here at 11:30
because of inability to encounter
favorable air currents.

RAILS REMOVED AND TRAIN WAS WRECKED

Engineer of Fort Worth and
Denver Express Killed at
Bellevue, Texas

FORT WORTH, Tex., Oct. 30.—
Posses are seeking a gang of robbers
who removed the rails in front of the
Fort Worth and Denver Express at
Bellevue today, causing a wreck which
resulted in the death of Engineer
Cunningham and Fireman Yates, as
well as in injuries to a score of pas-
sengers.

The wreck occurred after the ex-
press had rounded a curve and had
started to enter the yards. The re-
duced speed prevented a more serious
catastrophe. The engineer saw the
gap in the rails and tried to stop the
train, but failed. The engine tender
was hurled to one side while the bag-
gage car and the first passenger coach
left the rails but did not overturn.
Investigation showed that two rails
had been removed from the ties and
chained to the track. A handkerchief
and a partly filled whiskey flask near
the scene are the only clue to the mis-
creants.

Remains Shipped East

The body of Mrs. Martha Miller,
who died in Santa Ana on Saturday,
October 28, 1911, was shipped East
yesterday afternoon to Udell, Kan-
sas, accompanied by her husband and
daughter, Miss Mary Miller, who is
teaching in Santa Ana city schools.

WILL ARRANGE PLAN FOR THE GOVERNMENT OF ALASKA AND CONSERVATION OF RESOURCES

United States Senator William Al-
den Smith of Michigan, who is visit-
ing his parents, Mr. and Mrs. George
R. Smith, and sister, Mrs. Ella Fyfe,
here, today stated that the Committee
on Territories of the United States
Senate will work out a plan of civil
government for Alaska, and will pre-
pare a plan to do whatever is best
to be done in Alaska for the con-
servation of its resources.

"I was made chairman of that com-
mittee to succeed Senator Beveridge,"
said Senator Smith. "I have always
been very much interested in our
territories, and it has always been
my belief that Arizona and New Mex-
ico had a right to be states. After
the President vetoed the statehood
bill it fell to me to prepare the bill
that finally admitted them."

"I was therefore very much inter-
ested when I came through those
states. They are in the midst of their
state campaigns. I was urged to take
part in them, but I declined to do so.
My acts toward getting statehood for
them was not political, and I did not
care to use my influence in their elec-
tions."

"The Committee on Territories is
authorized to visit Alaska. That we
shall do next year. We expect to cod-
ify the territorial laws, and perfect
a plan whereby the people of Alaska
may have the very widest scope in
local self-government. As to the re-
lations to the federal government and
in regard to the coal and other re-
sources, we will formulate some offi-
cial public policy that will meet the
approval of the people. Whether or
not that will be by governmental
ownership of utilities and resources,
I cannot say, but the plan will be
along the line of whatever is best for
conservation. The matter will be set-
tled right. There will be no selfish-

HE DECLINES TO WITHDRAW THE PETITION DAY SET FOR NOV. 30

No Probability Fifth District
Saloon Election Will Be
Called Off

BOARD TO MEET WEDNESDAY NEXT

Combs, Only Man Who Can
Stop the Fight, Is Going
to Let It Go On

The petition for an election in the
fifth supervisory district, outside of
Santa Ana and Newport Beach, to de-
termine whether or not that district
shall go wet will not be withdrawn,
and the election must be held. Efforts
made to get John T. Combs of San
Juan Capistrano, who filed the peti-
tion, to withdraw it have failed, and
there is little probability that he will
change his mind between now and
Wednesday morning at 10 o'clock, at
which hour the Board of Supervisors
will meet to call the election.

The Board of Supervisors had un-
officially decided to have the election
on November 25. After that, learning
that many of the petitioners had given
up hope of carrying the district wet,
the supervisors on Oct. 25 postponed
action calling the election. The su-
pervisors hoped that the expenses of
an election could be saved. Since no
one could withdraw the petition but
the man who filed it, it was clearly
up to Combs. It is now definitely
learned that Combs refuses to with-
draw it.

Although the opponents of the sa-
loon are certain they can carry the
election by a big majority, they are
not going to cease their labors. They
have registered probably 450 women
in the district, and it is safe to say
that they will be almost a unit against
the saloon. Those favoring the saloon
made no effort to register women.
Tustin, Delhi, El Toro, Newport and
San Joaquin precincts have their wom-
en voters fully registered. At San
Juan Capistrano, where the vote of
the men of the precinct will probably
be wet, the proportion of women reg-
istered is small.

Owing to the delay in calling the
election, the supervisors may change
the unofficial date, Nov. 25. Nov. 28
has been talked of as the probable
date of the election. That will bring
the election on Tuesday instead of
Saturday.

Anybody registered thirty days be-
fore the election date can vote. The
precincts concerned are Tustin, Delhi,
Newport, San Joaquin, Trabuco, San
Juan and Laguna.

At the meeting of the supervisors
on Wednesday, the election will be
called, election supplies ordered and
election officers and polling places
selected.

Moose will give dance tonight.

President Would Have Nation
Grateful for Rich Harvests
and Prosperity

MESSAGE SOUNDS NOTE OF PEACE TO ALL WORLD

Starts East Today Well Pleas-
ed With His "Winning of
the West" Tour

CHICAGO, Oct. 30.—President Wil-
liam Howard Taft today issued the
annual Thanksgiving proclamation,
setting Nov. 30 as the date of the
celebration. In the preamble, the
President mentions the rich harvests,
our industrial prosperity, enlarged
markets, freedom from famine, pesti-
lence and war as particular reasons
for thanksgiving in the United States.
"Our national councils have fur-
thered the cause of peace in other
lands," the proclamation says. "This
spirit of benevolence has brought us
into closer touch with other peoples.
Strong in a sense of our own rights,
we are inspired to a sense of right in
others, so we live in peace and har-
mony with the world. Rich in price-
less possessions, abundant resources
whereof God's untold bounty has
bestowed us, we are unselfishly glad
when other people pass onward to
prosperity."

The President today opened the
program at the national dairy show
in the stockyards. He later laid the
cornerstone of the new Hamilton
clubhouse, where he took luncheon.
He starts east this afternoon.

PRESIDENT SATISFIED WITH TRIP THROUGH 22 STATES

CHICAGO, Oct. 30.—With a total of
twenty-two states visited, 119 sched-
uled stops and twice as many real
platform speeches, President William
Howard Taft today ended his "win-
ning the West" trip. The President
himself declares his satisfaction
with the results of the tour, although
the effect of the journey is not de-
cided.

AFTER TAFT TO TALK TO HAMILTON CLUB

The concession of the possibili-
ty of Republican defeat in next
year's election was the feature of
the address made here today by
President Taft before the Hamil-
ton Club of Chicago, the biggest
Republican organization.

"Even if we are beaten next
year there is hope for the future,"
was the way the President put it
when addressing the club.

YELLOW FEVER IN HONOLULU CAUSES MUCH EXCITEMENT

HONOLULU, Oct. 30.—Much excite-
ment prevails here as a result of the
discovery in Honolulu yesterday of a
case of yellow fever. The victim is a
Hawaiian and he is believed to have
been infected through the Japanese
liner Hongkong Maru, which recently
arrived here from Central America.

Prompt action has been taken by
the Federal and Territorial health of-
ficials to isolate the case and prevent
a spread of the fever, and in a state-
ment issued last night the authorities
say no danger is indicated by the cir-
cumstances of the case.

WILD GESE FLY SOUTH IN LONG TEN-MILE LINE

SAN BERNARDINO, Oct. 30.—A
flock of wild geese, in a line ten miles
in length, passed over the San Ber-
nardino valley Saturday. When the
last fluttering geese were leaving San
Bernardino the leaders of the flock
were in Redlands. They were flying
south.

DO YOU WANT MUSIC IN YOUR HOME?

The Bartlett Music Co. thank you
for the patronage given them during
their Special Piano Sale at the Santa
Ana Book Store.

We had thought we were at the
end, but piano buying has kept up so
briskly that we had pianos and then
more pianos shipped in, but now we
must close this sale. We cannot
have the space on the Fourth street
entrance of the Santa Ana Book Store
as Mr. Elm needs it to display his
large stock of Christmas goods al-
ready arriving. Why not avail your-
self of this opportunity to purchase
a new, high grade, fully guaranteed
piano at never again prices. Standard
makes—Autopianos, A. B. Chase,
Kimball, Schumann, Kohler, Camp-
bell. Pay what you want as first
payment. We will give receipt for
double up to \$50. Balance can be
paid on easy monthly payments.

Have you heard the Autopiano, the
best player piano in the world? We
have sold a great many of these won-
derful players in Orange county. Ev-
ery one has proven satisfactory. See
us at once. Bartlett Music Co., San-
ta Ana Book Store.

THOUSANDS MEET FOR SAFETY OF MINERS

First Assemblage of Kind Ever Held in
World—First Aid Demonstrations and
Mine Safety Considered.

PITTSBURG, Oct. 30.—Thousands
of expert mining engineers, represen-
tatives of mine and mining interests,
and spectators attended the opening
of the National Mine Safety and
First Aid Demonstration here today.
The assembly is said to be the first
of its kind ever held in the world and
there is wide interest direct.

The exhibitions consist of experi-
ments as to the cause of explosions
in mines, the force and effect of ex-
plosions caused by fine coal dust,
gases, blown out shot and other
things, the means used by rescuers in
going to the aid of miners following
accidents in mines and the "first aid"
administered to the men after being
brought to the surface. In the ex-
plosion exhibitions, scientific instru-
ments, automatic, registering the
temperature and velocity of the air
currents will be used, and from these
mining experts will obtain important
data which will cause them to be-
come more familiar with conditions
surrounding mine disasters and take
steps for the further protection of
lives and property. Plans were first
made to arrange the program so that
President Taft, who arrives here to-
morrow, might attend a number of
the explosion demonstrations but be-
cause of the fear that these experi-
ments might end disastrously and the
President be injured, the program
was changed so that only the tamer
part of the program, consisting most-
ly of relief work, will be staged in
his presence. However, the Presi-
dent will be given a chance to wit-
ness one explosion at Forbes field
when, after the executive has been
removed to a safe distance, an at-
tempt to wreck an armor plate tube
133 feet long and 8 feet in diameter,
will be made.

The scene of this morning's exhibi-
tions was at the Arsenal grounds
where the United States Bureau of
Mines has a laboratory. This after-
noon it was shifted to Bruceston,
Pa., a short distance outside the city,
where a test is scheduled to be made
in an old coal mine, especially fitted
up for the occasion, to show the ef-
fects of an explosion of coal dust.

In this mine, fine coal dust will be
placed on slabs in the galleries, main
passage and dead air spaces and then
a pound of black powder exploded.
This is expected to show the force of
a "flare back" caused by black pow-
der. A week ago during a test, to de-
termine the force of an explosion of
dust, windows in houses for many
blocks around were broken and a
freight car standing near the mouth
of the mine was blown 200 feet down
the track.

At the Arsenal grounds, tests of
AUSTRIA'S HEAD
WOULD HAVE ANGLIC-
SAXON RULE OF SEA

MELBOURNE, Oct. 30.—Andrew Fisher, the premier of the common- wealth, in a recent speech said that Australia ought to co-operate with the mother land in preserving the free- dom of the sea, so that as part of the family of nations and co-operating, perhaps, with the United States, she might be able to say to those who would break the peace of the world: "You shall not do it with impunity."

FRATERNAL ORDER'S CHANGE OF NAME

The Modern National Reserve
Lodge has changed its name to Amer-
ican Nobles. It meets in Fraternal
Brotherhood Hall the fourth Wednes-
day of each month. T. B. Taylor is
Eminent Protector, and Clara Mc-
Cord is Secretary.

G. A. R. EXcursion

One in Size and Pleasure

The excursion to the Soldiers' and
Home at Sawtelle on Saturday, under
the auspices of the G. A. R. Veterans
of Santa Ana, proved a big success.
Six coaches were furnished by the
Pacific Electric, forming a special
train in two divisions that left here
at 8 o'clock a. m. 360 tickets were
sold for the excursion, and a jolly
party it was that disembarked at Saw-
telle shortly after 12 o'clock. The
Soldiers' Band met the excursionists
and escorted them to the out-door
banquet room of the Home, a real
floral bower in a grove of trees. The
excursionists had taken with them
their lunch boxes, and the contents
of these were soon spread on the ta-
bles which had been prepared for
their coming. The Soldiers' Home
officials had provided hot coffee, de-
licious lemonade and fruits for the
visitors, a thoughtful attention that
was greatly appreciated. Later the
visitors were taken through the din-
ing hall and the library of the Home,
as well as over the grounds. The
visit was immensely enjoyed.

One in Size and Pleasure

In addition to the two hours' stay
at Sawtelle, the party was taken by
the managers of the excursion to the
Santa Monica bay resort, Long Beach

fuel, safety lamps, explosions of coal
dust and gases were made this morn-
ing. Lectures on these subjects
were also given by prominent men.

The exhibitions at Forbes field to-
morrow will be under the auspices
of the Red Cross society in relief
work. Forty rescue teams from ev-
ery part of the country will compete
for prizes which will be awarded the
winners by the President on a plat-
form erected over the home plate. At
the ball park another coal dust ex-
plosion will be on the program ad-
ded by black powder fired by a can-
non. About ten different kinds of
powder, now recommended by the
government for use in mines, will be
fired first in an effort to show that no
explosions result from their use.
Finally a charge of black powder
such as is being used in many of the
mines will be fired, and an explosion
which promises to shake Forbes field
more than any enthusiasm that ever
followed in victory in the ninth in-
ning for the Pirates will result, those
in charge of the program declare.

The "first aid" contests will be un-
der the supervision of Dr. M. J.
Shields, chief of the field department
of the Red Cross. Dr. Shields, who
comes from Scranton, Pa., success-
fully organized and brought to a high
state of perfection, first aid work in
the anthracite coal mines of northern
Pennsylvania.

J. W. Paul of the Bureau of Mines
will be manager of the field events,
and Clarence Hall, of the Bureau of
Mines will have charge of the explo-
sions. Francis J. Feehan, president
of the United Mine Workers of the
Pittsburgh district, will be field mar-
shal.

Secretary of the Interior Fisher ar-
rived here today to attend the dem-
onstration and a reception will be
given tonight at a downtown hotel.

Today and tomorrow were declared
holidays by the district presidents
of the United Mine Workers of Amer-
ica in Pennsylvania and the neigh-
boring states, and as a result it is es-
timated that between 30,000 and 40,
000 miners are here. Forty "first aid"
teams from every part of the United
States as well as Mexico and Canada
are also here, as are many mining en-
gineers and representatives of mining
interests.

Among the foreign representatives
at the demonstration are Senor Abra-
ham Ferris, representing Mexico;
Dr. Eugene Hoes, director of the
Bureau of Mines of Cal. Pa.; M. de
Puligny, chief of the Bureau of En-
gineers of France and Francis J. Yanes,
representing the Pan-American union.
From far away Japan came Drs. K.
Motomutsu, N. Nishimura, K. Yos-
uka and G. Mats Omutsu of Tokio.

POSTAL BANK GETS \$2,000

Anaheim Makes a Showing—
Tomatoes Advance in
Price \$2 Per Ton

NEW YORK, Oct. 30.—The work
of passing upon the reorganization
plans of the tobacco trust, recently
forced to dissolve through the govern-
ment's investigation of it, under the
Sherman anti-trust law. There were
but few spectators when court opened,
Judge Lacombe presiding, announced
the plans of the trust which are that
the representatives of the security
holders and the independent tobacco
growers will be heard and after this
the American Tobacco Company
chiefs will be permitted to answer the
objections to their plans. When all
the argument pro and con are over,
Attorney General Wickersham will
have the final say.

Lewis Cass Ledyard, of the trust
counsel, was the first speaker today
before Judge Lacombe. He urged a
"sane and reasonable" plan of adjust-
ment and predicted that disaster
would follow the appointment of a
trust receiver.

10 MILES OF WILD GESE

Flock Reaching From San Bernardino
to Redlands in Flight
SAN BERNARDINO, Oct. 30.—A
flock of wild geese, ten miles in
length, passed over the San Bernar-
dino valley Saturday. When the last
fluttering geese were leaving San
Bernardino, the leaders of the flock
were in Redlands. They were flying
south.

BITTERNESS IN COURT TODAY

McNamara Counsel Darrow Is
Critical of Bordwell's De-
cision as to Jurors

REBUKED BY JUDGE AND REPLIED IN BITTERNESS

Vindictively Worded Objection
Written in Records Is
Overruled By Court

LOS ANGELES, Oct. 30.—Clarence
Darrow, chief of the McNamara coun-
cil for defense, was severely rebuked
from the bench by Judge Bordwell to-
day for predicting an attack upon his
decision of Saturday in qualifying the
jurors, Frampton and Winter, upon
an "isolated portion of their testi-
mony." The court also overruled new
challenges against the two jurors be-
cause they said they could not return
a verdict of guilty where it meant
hanging on circumstantial evidence.
They can now be eliminated only by
peremptory challenge or impeach-
ment.

Bordwell characterized the new
challenge as a flagrant attempt to
evade the effect of his decision made
on the merits of the case, and said
he doubted if any court in the land
had ever heard a parallel case. He
also declared the substantial rights of
the defense could in no way be men-
aced by the retention of the pair in
the jury box. In fact, he said, they
would be safeguarded, and if any one
was hurt it would be the prosecution.
Darrow guardedly objected to court ex-
plaining his decision of Saturday, and
declared the explanation at variance
with the record in the case. He inter-
rupted Judge Bordwell with a pro-
test and an objection which was
promptly overruled. Then when Judge
Bordwell's decision had been com-
pleted, Darrow read into the records
a formal objection which was couched
in the most bitter and vindictive
terms, which objected to the court
dealing with matter "foreign to the
subject under discussion and already
disposed of," also with making state-
ments which were not in the records.
After the objection had been entered,
it was sharply overruled, and the de-
fense was curtly directed to "proceed
with your examination." Darrow and
opposing counsel frequently clashed
during the morning and the court was
compelled to sharply admonish them
several times.

At noon today the following jurors
had been passed for cause in the Mc-
Namara case, and now can be elimi-
nated by peremptory challenge or impeach-
ment.

GOOD FUTURE FOR INDUSTRY

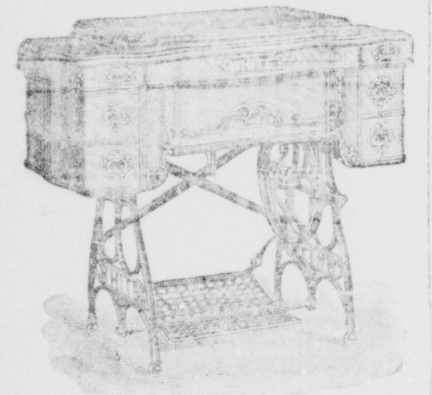

Sugar Factory Investors Ought to Take Comfort in Government Report

Sugar factory investors in Orange county, responsible for five factories, have occasion to feel enthusiastic with regard to the future not only because of the success of sugar manufacture in the county but also because of the position the United States Agricultural Department is taking in recent announcement concerning the industry. In these announcements the department is pointing out the large excess there is in demand for sugar in the United States over present production in the country and is telling the public of the opportunity there is for the establishment of many more factories. The department view gives confirmation of the most confident assertions made by the sugar factory promoters with respect to the industry being in its infancy at the present time in this country, notwithstanding the great strides that have been made in the last several years in the matter of increasing sugar beet acreage and sugar factory operations.

CONGRESSMAN SMITH'S HEALTH IS IMPROVED

Friends of Congressman S. C. Smith, and that term will include about all the people of the district, who, with regard to party, have recognized in him an extremely able member of the House of Representatives, will be delighted to know that so far his progress toward recovery that he has left the sanitarium at Monrovia, where he has been for almost six months, and has taken a house in Los Angeles, until December, when he plans to go to Washington. He is not able to be out and he is under the care of a skillful nurse, but so rapidly has he progressed since he suffered from the severe heart attack two months ago, that his complete recovery is now seemingly a certainty. He will not be able to plunge into full work at Washington, and will have to guard himself against the miserable winter climate of the capital. But he will be there to watch the interests of his districts and of California in the approaching session, which is likely to be one of the most important to California interests in many years, and he will always be within call if needed.

SUDDEN DEATH WHILE ASLEEP

Ontario Man Passed Away of Apoplexy While on Outing at Balboa

Burton Tuttle of Ontario was found dead in his bed at Balboa yesterday morning. Death was due to apoplexy. Tuttle was 69 years old. Saturday he went to Balboa by automobile from Ontario with eight friends and relatives. It was the intention of the party to remain over Sunday. Saturday night Tuttle went to bed in his usual health. He died during the night. His son-in-law, H. E. Swan, cashier of the First National Bank of Ontario, was in the party. Colonel Winbigger went to Balboa to hold an inquest.

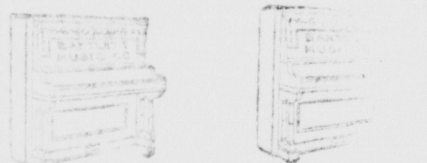

CASCARETS FOR A SICK, SOUR STOMACH

Gently But Thoroughly Cleanse and Regulate Your Stomach, Liver and Bowels While You Sleep

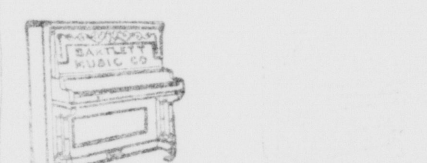

—That awful sickness, belching of acid and foul gases; that pain in the pit of the stomach; the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means indigestion; a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any. Try Cascarets; they cure indigestion because they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels. Then your stomach trouble is ended forever. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

Notice of Annual Meeting
—The annual meeting of the stockholders of the Santiago Orange Growers Association for the election of a Board of Directors for the ensuing year and for the transaction of any other business that may properly be brought before the meeting will be held at the office of the Association in the packing house in the City of Orange, Wednesday, Nov. 8, 1911, at 9:30 o'clock a. m.

OLD PIONEER VERY FEEBLE

"Sam," the Boatman, Aged 86, Reported to Be Low at Newport Beach

Newport News: Samuel Piestini, one of the oldest residents of this part of California is very feeble this week at his home in this city and his recovery is not expected. Piestini, who is better known as "Old Sam" is a Slavonian who lived here with the Indian, Joe Baracca, before Newport Beach was heard of. For years he has lived near the edge of the bay at the foot of 19th street and has made a partial living renting boats. He has not suffered for lack of care in his old days, however. For Ned Kovach, known here as "Big Ned," has taken good care of him. Piestini has never failed to vote a straight Democratic ticket at every election. It has always been necessary for the election officials to help him with his ballot on account of his inability to read or write but he never failed to vote. He is 86 years old.

A foxhound that belonged to no one in this city created considerable excitement and no little alarm by acting in a very strange manner Wednesday. The dog was first noticed in the French settlement in the morning when it killed a cat and devoured the head and forequarters. It also picked up a little dog belonging to Emilie Bergey and started to carry it away in its mouth. In the afternoon it made its appearance at the hotel, and lit into the collection of cats around that place. Walter Trickey says he saw the dog bite four cats before they had time to know what had happened. After chewing up the cats the dog ran under the hotel. Acting Marshal Cravath left Harry Edenborough to watch the hole while he went after a shot gun. Upon his return he saw the dog come out with Harry giving it a full right of way. Cravath followed the dog to the lumber yard and killed it.

Misses Sadie McMillan and Sylvia McLeod left today for several days outing at Catalina.

It is the same old story in regard to the Collins-Young oil well near this city. It being found that the water has not been shut off. The casing is now being raised and the water shut off 80 feet higher. There is undoubtedly a lot of good oil in the well and if the water difficulty is ever overcome there will yet be a good oil field near Newport Beach.

Mrs. W. A. Cornelius and her daughter will return tomorrow from a three months visit in Colorado and Kansas.

A. K. Cravath is acting city marshal during the absence of Albert Hermes at the meeting of the League of California Municipalities at Santa Barbara this week.

Clive Aiken came in from San Francisco Wednesday for a visit with his parents, Mr. and Mrs. James Aiken who recently arrived from Minnesota and located on Newport Heights.

Nearly all the fishermen not selling for smelt are catching crawfish, the raise in the price to nine cents a pound wholesale making it a paying business. But the crawfish are already getting scarcer and the chances are that when the season closes on February 15th they will be as high as ever again.

Hallowe'en Party
There will be a Hallowe'en party at the East Newport Pavilion on Tuesday evening 23.30 by the local club to celebrate the opening of the pavilion as Station A of the South Coast Y. M. C. club and also Hallowe'en Games appropriate to the occasion have been arranged for and a genuine Hallowe'en supper will be served. The admission will be 25c which will include the supper. The proceeds are for the library.

A FAIR OFFER

Your Money Back If You Are Not Satisfied

—We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. That's a mighty broad statement, but we mean every word of it. Could anything be more fair for you?

A most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. Their active principle is a recent scientific discovery that is odorless, colorless and tasteless; very pronounced, yet gentle and pleasant in action, and particularly agreeable in every way. They do not cause diarrhoea, nausea, flatulence, griping, or any inconvenience whatever. Rexall Orderlies are particularly good for children, aged and delicate persons.

If you suffer from chronic or habitual constipation, or the associate or dependent chronic ailments, we urge you to try Rexall Orderlies at our risk. Remember you can get them in Santa Ana only at our store. 12 tablets 10 cents; 36 tablets 25 cents; 60 tablets 50 cents. Sold only at our store—The Rexall Store, Dean's Drug Store, 194 West Fourth street.

BIG CONVENTION DURING NOV.

Southern California Sunday Schools to Gather in Los Angeles

The twenty-second annual convention of the Southern California Sunday School Association will be held in Los Angeles, Tuesday, Wednesday and Thursday, November 7, 8 and 9. The committee on program has secured as convention help, Prof. Henry F. Cope of Chicago, general secretary of the Religious Education Association; J. Shreve Durham, superintendent of Visitation and Home Departments of the International Sunday School Association; and a number of Sunday school specialists in Southern California. Among them: President Charles H. Seecombe, Prof. J. A. Baber, Rev. Oren B. Walte, Miss Meene Brockway and Miss Rose Scott, formerly elementary superintendent of New Jersey. The song service will be conducted by Prof. B. P. Stunt of South Pasadena, assisted by a male quartet.

Special features will be: One big parade for men and boys, on Thursday evening at 7 o'clock; two Sunday school experts of international renown; three full day and three evening sessions; four simultaneous conferences each morning, at a school; five musical specialists—a soloist and a male quartet. This is a personal invitation to you to come and bring your co-workers for the inspiration and instruction of this great gathering.

Convention announcements are: The main sessions of the convention will be held in the First Methodist church, corner Sixth and Hill streets.

The registration headquarters will be in the basement of the same building.

Delegates: Every pastor, superintendent, county and district officer and every fifth member of each school is considered a delegate. Any school having less than fifty members is entitled to one delegate.

Entertainment: All delegates living beyond the suburban trolley lines will be given lodging and breakfast.

Railroad Rates: A rate has been authorized of one and one-third fare on the certificate plan, provided there are fifty certificates turned over to the secretary of the convention.

Pay full fare on the going trip, take a receipt from the agent selling you the ticket, have the same endorsed by the secretary of the convention and you can buy a return ticket at one-third the regular rate.

N. B.—This rate applies to all of Southern California, south of the north line of San Luis Obispo, Kern and San Bernardino counties.

One Delegate Not Enough: The day is just when one delegate can properly represent a Sunday school in a Southern California convention. The feast of good things will be continuous and in several simultaneous sessions. A school needs an "eye" in each simultaneous session as well as several eyes to behold things in the general sessions from several angles.

Sunday School Exhibit: If you can procure from your own school or from your neighbor's a single object indicating the hand work being done by the pupils of a Sunday school; the Adult Bible class work used to advertise, decorate, social invitations, unique plans, etc., for the work's sake, bring or send it for the exhibit. The Sunday school exhibit, carefully studied, will in itself be a valuable education.

Note books and Bibles will be needed by all.

Other information may be secured by writing to Theo. A. Watrip, general secretary, 714 Wright and Calender Building, Los Angeles, Cal.

TICK QUARANTINE IS BEING REMOVED

Dr. Charles Keene, State Veterinarian, has announced that the county of Santa Barbara has been exempted from United States quarantine against the Texas fever tick and that cattle can be shipped from that locality free of the former restriction that for so many years has been a detriment to the cattle industry in that section.

This leaves only San Diego, Orange and a portion of San Luis Obispo counties under quarantine, and it is expected that Orange will be released early in the coming year, as only one ranch in that section is affected with the tick.

In San Luis Obispo there are still eight ranches that have not been cleared.

In San Diego County the main trouble is on a ranch of some 400,000 acres, carrying nearly 40,000 head of cattle.

FACTS, NOT DREAMS

Santa Ana Bulletin: It is hard to make an Easterner believe some of the wonderful stories about the climate, soil and productivity thereof of Southern California, and so when we mention that a ten acre orange grove in the corporate limits of Orange last week sold for \$21,000, that Easterner will say, "that's another California lie." But it is not, and only the gospel truth, and any one can easily satisfy themselves of the truthfulness of this by asking for the papers in the case. This ranch was sold by R. Y. and W. B. Williams several months ago for \$20,000, and now it has been sold again for \$21,000, and the new owner, A. M. Smith, is an old experienced orange raiser, and knows a good thing when he sees it. The crop of Valencia oranges this year on the ten acres brought \$4500. Not a bad buy after all, is it?

Moose will give dance tonight.

BRINGS THE MONEY OUT

Postal Savings Finds the Odd Corner Coin of the Anaheimites

Postal Savings bank experiment in Anaheim is proving decided success, that deposits to the present time amount in California there has been equally good showing made by the postal savings department. It was stated by the postmaster this week that deposits to he present time aggregate something better than \$2000. There has been no solicitation or other effort made by Mr. Duckworth in the matter of acquiring these deposits. The latter have been submitted in a wholly voluntary manner.

It is stated that the large number of deposits have come from sugar factory employees. The number of foreigners contributing to the account has been comparatively small. There have been a good many deposits made by school children. There have also been a number of deposits made by people who have evidently had money in hiding. One person who deposited \$100 had evidently had the amount secreted for many years. Postmaster Duckworth found it necessary to have the coin, which was in gold, scrubbed before he could rightly determine the amounts represented and make deposit of it in the bank.

"I believe," said the postmaster this week, "that we are going to bring a considerable amount of money into circulation before we are through with it. You see, a good many people who have previously hoarded their money are going to bring it to the postal deposit. From the postal deposit the money is turned into the banks chosen by the government for the purpose. That means that the money enters the channels of trade. Otherwise I do not believe that the most of this money would ever come out of hiding. In consequence it is a big gain for the general public, for every dollar added to general circulation is an important gain for the people who use money and keep it in circulation."—Anaheim Plain Dealer.

SAYS QUININE WILL NOT BREAK A COLD

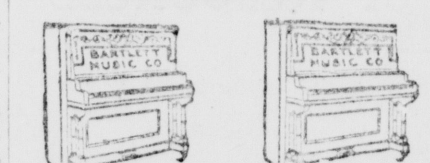

How to Cure a Bad Cold and End Grippe Misery in a Few Hours

—You will distinctly feel your cold breaking and all the Grippe symptoms leaving after taking the very first dose.

It is a positive fact that Pape's Cold Compound, taken every two hours, until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable headache, dizziness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges. Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

—Only a few left. We have sold pianos during this Special Sale. You can now have one at a low figure on easy terms. We must stop selling at never again prices. Bartlett Music Co., Santa Ana Book Store.

SEEKING BEETS AT SAN LUIS REY

Santa Ana Men Expect 1000
Acres in New Fields for
Next Season's Run

Oceanside Blade: H. W. Hinze, superintendent of the Southern California Sugar factory at Santa Ana, and F. A. Collier, field manager, were in this locality Wednesday, in connection with the proposition of securing the planting of a large acreage of sugar beets for the coming season.

With J. T. Morrison they visited Marron canyon, and the valley around San Luis Rey, making a careful inspection of the land. Messrs. Hinze and Collier were well pleased with what they saw, pronouncing the land well adapted to sugar beet raising, in fact, because of the sandier nature of the valley soil they were of the opinion that beets could be planted by the latter part of December, even with no early rains, and could be harvested by July 1st, fully a month earlier than around Santa Ana, thus prolonging the sugar making season that much more.

The desire of the factory people is to secure the planting during the coming year of at least a thousand acres of beets. If this were done they would be in a position to secure from the railroad company the building of a spur track into the valley and they would build a dump at San Luis Rey. They are endeavoring to secure the planting of as large an acreage as possible by the land owners themselves and where the latter do not care to plant the beets the company stands ready to lease the land and supply some one to farm it, the owners to get one-fifth. Some of the land was said to be so well adapted to beet growing that Mr. Hinze said he was prepared to guarantee that it would produce fifteen tons to the acre. Some of the beets already raised have gone as high as 23 per cent sugar.

In planting the land the factory people will supply seed at twelve cents a pound, the estimate for the

M. ELTISTE & CO.
Dealers in Implements and
Vehicles.
Orange, Calif.

valley land being fifteen pounds to the acre. Thinning, hoeing, topping and loading can be contracted for at an average of one dollar per ton. The raiser generally does the cultivating.

With seed at two dollars an acre, care of the crop exclusive of planting and cultivating twelve to fifteen dollars, a production of twelve or fifteen tons to the acre at five to seven dollars a ton, ought to show a good profit, especially as much of the land that could be utilized for beets is not now in shape to raise any other crop, nearly as profitable.

F. B. Case, manager of the sugar factory will be down within a few days and a meeting of the farmers who may be interested will be held at the San Luis Rey creamery to talk matters over. There should be a large attendance as the indications seem to be that the locality is in a position to inaugurate an industry that will mean much to this entire northern portion of the county.

Specially Interesting to Women
—Few women are physically perfect and, in fact, medical records go to show that perhaps the great majority of women suffer from some more or less serious ailment peculiar to her sex.

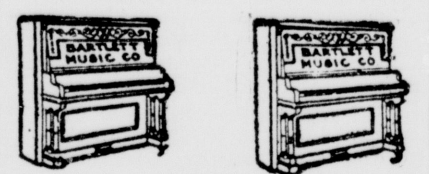

To place a reliable treatment within the reach of such persons—one that did not contain anything in any way injurious to the system—Rexall Vegetable Compound was first offered for sale.

Practical demonstrations have since proven that this preparation, having for its basis the formula used by a reliable physician who made a specialty of such cases, is all that has been claimed for it, and we offer you Rexall Vegetable Compound with the assurance that it will prove beneficial in the treatment of such cases, or we will promptly refund any money you may have paid us for it.

Rexall Vegetable Compound can be obtained only at our store—The Rexall Drug Store, Price, \$1.00 per bottle. Dean's Drug Store.

COUNTY SUPERINTENDENT'S BULLETIN TO TEACHERS

Office of County Superintendent of Schools.

R. P. Mitchell in the Monthly Bulletin to teachers of Orange County says:

"Surely the school people of Orange County will welcome this bulletin especially since the State Board of Education refused to designate an official Journal of Education. Teachers and school trustees should know what is being done educationally in the whole state. Sometimes they are glad to know of what is being done in their own county. This circular will be a means of communication between the office of the county superintendent and the trustees and teachers. Anything mentioned herein or in future numbers should be considered official by trustees and teachers. For example, if a notice of a trustee's convention is printed in the bulletin, I shall not deem it necessary to send the trustees a circular letter containing the same notice."

"The compulsory education law as amended by the last legislature states that each parent, guardian or other person having control of any child between the ages of eight and fifteen years shall be compelled to send such child to a public school during the time that the schools are in session unless excused by the board of trustees for certain specified reasons. The school trustees at their annual institute expressed the sentiment that all helpful persuasive and sympathetic means be used in behalf of the delinquent child. The schools of the state are free. Every boy and every girl is entitled to a common school education. How many children are there in your district who are not, but should be in school? If any, let's deal with them in a kindly way and endeavor to have them enter school and provide them with that equipment that the state intended they should have, a knowledge of the essentials: Reading, writing and arithmetic."

"The school registers have not as yet been sent from the state office. They will be distributed among the teachers as soon as they are received by this office. The teachers will be expected to copy everything that has been written in the old register into the new ones. Read and follow the directions on the first two pages of the register. If you have any pupils attending your school whose parents live in some other district enter their names below the names of the children that live in the district or place them on another page in the back of the register. Your record of attendance and monthly abstract of attendance should be for your district and should not include the attendance of outside pupils. The attendance of non-resident children should be certified to the county office separately at the end of the year. The record should be properly and accurately kept. It

is a good plan to prove each page of the register."

"The art exhibit held last year in connection with the institute was pronounced a success by the teachers. They asked that the exhibit be made a part of future institutes. Exhibitions are valuable just as long as they represent classroom work. They should not be prepared for show."

"Art exhibits alone might cause teachers to give too much time to the teaching of art. Each subject has its place and should be given its time in the daily or weekly program."

"There will be a school exhibit at the next institute. Teachers are asked to display any work that has been done this year, such as, industrial work, maps, compositions or papers showing the daily work in any subject. The purpose is to give teachers an opportunity to see what is being done in the schools of the county."

"The exhibits from the various schools should be placed in the Santa Ana Commercial high school on the Saturday preceding the opening of the institute or early on the following Monday. Burlap and tables will be furnished. Let's have as many schools represented as possible. It will help you and will help the children."

"One of the progressive teachers of the county, now to me and asked: 'Is it necessary to come to Santa Ana to enjoy the use of the Teachers' Library or are books sent upon receipt of postage?' My reply to this question may be helpful to many teachers."

"There are in the library approximately 4500 volumes and new books are being constantly added. Teachers should feel free to suggest the names of books of real value that may not be in the library. I would rather buy books that the teachers will read than books to decorate the shelves."

"Books are sent by mail or express upon the request of any teachers and the postage or express is paid by this office. There is a printed list of professional books that may be had for the asking."

"Education of the child, by Ellen Key, has been added to the list of books of the teachers' library. This is a most instructive book on the subject of discipline. It contains only 84 pages, is interesting and may be read and appreciated in a single evening."

"I have visited twenty-four schools since September 18. Some may be surprised to know that almost half of the teachers are new to the county. No one seems to know what has become of the teachers who are not with us this year. A few have entered that happy state of matrimony, but the larger part of them have gone to new fields to continue their chosen profession. May they be successful."

"The new teachers are entering into the work with a great deal of enthusiasm. A good beginning is half the battle."

"Did you ever stop to think about the responsibilities of the teacher? She is held responsible for the proper care of the school buildings and grounds—the outbuildings must be kept clean and sanitary, the school buildings must not be littered with sticks or bits of paper; she must oversee the conduct of the pupils while at school, and while on the way from and to school; she must follow the course of study as prepared by the board of education; she must take care of the school library."

"In addition to these duties prescribed by law, the teacher is expected and should, if possible, participate in the social events of the community in which she lives."

AMUSEMENTS

It Happened Last Saturday Night
That was "The Time," "The Place" was "The Bell Theater"—and "The Cause" was "The Girls" and the Starland Musical Comedy Co., the biggest turn-out in the history of this most popular house. All records were broken, and hundreds of anxious visitors were turned away. The second show was sold out by the time the first performance was half over. Many bought tickets but could not wait, the first show running so long, caused by the big audience not allowing the artists to leave the stage, but called and recalled every number, the well drilled chorus having to repeat their numbers many times. So great was the demand for seats that chairs from the dressing rooms and the front of the house were all brought into use, and the audience, one of the finest seen in Santa Ana in years, and some of whom not been in a show in six months, expressed themselves as being delighted.

For tonight, Tuesday and Wednesday night, the Starland Musical Comedy Co. presents "Two Tars and a Tartar," in which every member will be seen to good advantage. Three reels of splendid pictures will be shown. Complete change for Thursday and Friday. Just one show a night, commencing at 7:30.

101 RANCH COMING

The street parade given by the 101 Ranch Real Wild West Show, which will be here November 14, is well worth seeing and it is a refreshing departure from other parades given by tented amusements. It is in no way partakes of artificial and it is its homeliness that recommends it.

It could be truthfully alluded to as a typical Western caravan and so pronounced is the Western atmosphere that surrounds it that one is carried back to the days when railroads and modern means of travel were wholly unknown in the West. It is one continuous kaleidoscopic-like review of the early days in the Western country. Not only is this parade wonderfully interesting and educational but it is as well a fitting prelude of the performance that has made the 101 Ranch show the most popular

California: It's History and Romance

By JOHN S. McGROARTY

A BOOK that you will SIT UP NIGHTS to READ

It is a one-volume story of the most wonderful state in the world told in the language of a poet. Every phrase is a song; every statement is a fact. It thrills and thrills and thrills.

Eloquent, yet concise; beautiful, yet solid; fascinating, yet instructive; it contains all that is essential and is a portrayal of California by the Golden State's most gifted and best loved writer.

Adapted to youth, middle aged and elderly persons alike, it meets the universal demand of all for a single-volume history of California. It is very valuable to the student, not only for the knowledge it contains but also as a study in word-painting and phraseology.

This work has been reviewed and passed upon by the most eminent historians and literary critics of California, to their complete satisfaction.

In one volume, thoroughly indexed, beautifully illustrated, splendidly bound and printed in good readable type, it is the most valuable book on the Holiday counter. Be sure that some member of your family receives it as a Christmas remembrance in order that it may have a place in your home.

Written by a Californian, published by a California House, it fulfills in every respect your choicest demand. Sold at all bookstores, or address

GRAFTON PUBLISHING CO.

The West Coast Magazine Los Angeles, Calif.

Santa Ana Hounds Made Good in Missouri Meets

J. A. Turner, cashier of the Farmers & Merchants National Bank of Santa Ana, returned Saturday from a pleasure and recreation trip of eight weeks in Northwestern Missouri. "That country back there isn't in it with this," said Turner. "Business conditions are nowhere near as good. The crops are light. Business conditions here are far and away better than they are back there. Take it any way you want to look at it, and California is away in the lead."

The banker enjoyed many a fine fox-hunt while he was away, and his pack of dogs made good. Turner took six dogs with him, animals that he had found true in a hundred chases after coyotes on the local hills. These hounds were put up against the best packs in Missouri, and they carried off honors.

The California pack was entered in the Central Missouri Fox Hunting Association meet at Excelsior Springs, and they won the distinction of catching the only red fox caught above ground during the meet. Several foxes were holed, but the Santa Ana dogs of all the packs, numbering 100 dogs, caught the fox fair and square. The hounds showed up well in the Northwestern Missouri Association meet at Ridgeway.

POSTAL BANK GETS \$2,000

Anaheim Makes a Showing—
Tomatoes Advance in
Price \$2 Per Ton

ANAHEIM, Oct. 30.—The postal savings bank experiment in Anaheim is proving a decided success. In fact, it is a question if in any other town in California there has been equally good showing made by the postal savings department. It was stated by the postmaster yesterday that deposits to the present time aggregate something better than \$2000. There has been no solicitation or other effort made by Postmaster Duckworth in the matter of acquiring these deposits.

Large shipments of local grown tomatoes are now being shipped to the eastern market and good prices are being realized. Growers are receiving \$27 per ton this week, an increase of \$2 per ton over last week. This price applies only to tomatoes of uniform size and ripeness. The cull tomatoes are not a total loss to the grower, however, there being a demand for them at \$7 per ton by the Taylor Cannery. The California Vegetable Union is the largest shipper of tomatoes to the East with the remainder of the shipping divided among smaller vegetable companies and individuals.

Don't forget Moose dance tonight.

Drs. Rossiter & Paul, Dentists, corner Fourth and Main Sts.

Representative Printing

¶ If you want the public to believe that you produce or sell an article superior to that of your competitor, then your *printing* should convey that impression by *its* superiority.

¶ If you want to impress the public with the distinctiveness of your concern or its product, then *distinctiveness* must be the dominant feature of the literature which represents your concern.

¶ To combine these qualities—==to make your printing representative of you and your product==is the constant study of this shop. It's the eternal fitness of things that count.

¶ Register printing "fits"—==and it counts==and it is sold on the assumption that there's economy in quality.

THE OLD SOLDIERS EXEMPTION

The Register regrets to learn that some people regard its opposition to the amendment exempting \$1000 worth of the property of old soldiers from taxation as an indication that this paper is unfriendly to old soldiers. Nothing could be farther from the truth.

The editor of the Register yields to no man in his love and honor for the old soldier, as the editorial columns of this paper will amply testify. If the state had proposed to provide a pension or bounty for ALL old soldiers, to be paid from the GENERAL FUND of the state treasury, or if the proposition had been to levy a special tax upon ALL property to provide a pension or bounty for ALL old soldiers equal to the amount of taxes on \$1000 worth of property, the Register would have supported the amendment most heartily.

But this paper believed, and believes now, that the amendment, in the form it was proposed, was unconstitutional in spirit if not in letter.

It was class legislation, in that it did not affect the revenues of all localities alike, and in its discrimination in favor of the old soldier who owns taxable property.

It was unjust in that it provided (in effect) a state pension for those old soldiers WHO NEED IT THE LEAST—those who have property. Why should the state pension the old soldier who HAS property and deny such aid and relief to his LESS FORTUNATE BROTHER SOLDIER?

It was bad civic policy, in that it would give rise to criticism and complication of our system of taxation, which is bad enough at best.

It was the means and method that the Register objected to, not the end aimed at. And so sure was this paper that its attitude would be understood, so clear was its conscience, so complete its confidence in the old soldier's pure patriotism and fair-mindedness, that the thought never presented itself that any one could be hurt or offended.

If the Register's course in this matter gave pain or offense to anyone, we regret it exceedingly, but the old soldier should be the last man in the world to take offense at any man for doing what he conceives to be his duty.

WOMEN FOR A THAT

They are having a fuss up in Washington over the question of women jurors, who object to being suffocated by the pipes of men jurors, and do not like all-night sessions, propped up in uncomfortable chairs. To which the usual reply is the shallow fling "if the women want men's rights they must expect only men's consideration."

But let us see: Women used to be excluded from the schools and colleges attended by men, but long ago they were admitted to equal educational right, without derogating in the least from their right to feminine courtesy. The mere fact that women are in universities by right instead of by courtesy does not authorize men to smoke or swear in their presence, or to treat them with boorishness. In fact, in Germany exactly the reverse happened. When the women were first permitted to attend university lectures as a pure courtesy, the men went out of their way to act as if no women were present, and the professors conspicuously ignored them, ostentatiously addressing their classes as "meine Herren"—"gentlemen."

Now that the women are in the German universities by right, they are treated just as ladies are treated anywhere else. Women in civilized countries now go to places of amusement and business, walk the streets and ride in public conveyances, on exactly the same terms as men, but in all these places men are expressly forbidden to smoke where it will annoy women, and custom dictates courtesy and consideration. In fact, women had already achieved exact equality with man in everything but the political sphere, without in the least changing the normal relations of things. When men and women sit down together at the faculty meeting of a school in which both teach, the men teachers do not find it necessary to be lacking in courteous consideration for the women teachers. And there is as little reason for any such conduct in the jury room.

The franchise has not given women the rights of men. It has merely recognized that these rights belong to women, also. All the other relations and distinctions between the two halves of humanity are unaffected. It is no more appropriate to subject a

woman to a man's conditions, because she happens to be a voter and a juror, than it is to require her to join the football team, because she happens to be a college student.—Fresno Republican.

NEW APPEAL SYSTEM

The defense in the McNamara trial yesterday received an exception to Judge Bordwell's ruling admitting a certain juror who now believes, on newspaper information, that the Times building was blown up by dynamite, but has no opinion who blew it up. That was of course the regular thing to do, with a ruling which may be disputable. But the interesting thing is to realize how much less that exception means than it would have meant three weeks ago. Then, if the Supreme Court were to decide that the ruling was erroneous, this exception would have meant a reversal and a new trial. Now it will mean only a determination of the abstract law of the matter, unless it shall appear to the court that there has been a miscarriage of justice. Of course there can be no appeal unless McNamara is convicted. But if there is an appeal, it will be of no avail unless there can be a showing that there was a miscarriage of justice toward this particular defendant, in this case. If this ruling should be declared erroneous, but if there should be no reason to question the guilt of the convicted appellant, the trial and the verdict would still stand, notwithstanding the error. There was no greater revolution wrought by the election of two weeks ago than just this reversal of the whole relation of an appeal court to the trial.—Fresno Republican.

NOT QUITE DOWN AND OUT

The Italian importers who claim that the lemon tariff has put them out of business are not supported very well by the last government report on importations. This shows that over \$3,000,000 worth of lemons were imported last year from Italy, practically all from the island of Sicily. The import valuation is always placed low and these lemons were no doubt sold for at least \$5,000,000. That is certainly more than the lemon growers of Southern California received for their crop last year.—Riverside Press.

CANAL PROBABILITIES

Army and Navy Journal. The proposed naval parade of the nations from the Atlantic to the Pacific, by way of the Panama canal, at its opening in 1915, is likely to be participated in by the new Australian fleet, now in the builders' hands in England. In the opinion of the United States Gazette this new waterway will be used freely by British merchant ships and warships, and if it is to be neutral in time of war it will make it much easier for the colonial fleets to join hands with the mother fleet, as well as facilitate reinforcements being sent to many parts of the empire, which will then be much less remote in point of access from British shores than at present. The Pacific, in fact, be brought within reasonable touch with the home fleet, continues the Gazette, "and Australia may well feel a greater security after the new waterway is opened. The difficulties in the making of this canal have been stupendous; but the tenacity of the American statesmen and engineers has surmounted all obstacles, and the end is now plainly in sight. They are to be congratulated on the way their modern De Lesseps, Col. Goethals, has stuck to his task and placed the accomplishment of such a creditable performance beyond all reasonable doubt. In the old days a commission on the Pacific station often meant four, five or even six years in duration for British warships, owing to its remoteness. In three years' time the Panama canal will be finished, and the Pacific will be accessible in little more than a fortnight from England."

Dashes Help a Lot

Dr. Kroeber of the University of California says the average man does not use more than 1000 English words in his daily life. It seems to us that 1000 English words with a liberal supply of dashes ought to enable one to express himself clearly.—Houston Post.

To My Successor

LOUIS E. THAYER IN
LOUISVILLE HERALD

Here is a toast that I want to drink to a fellow I'll never know—
To the fellow who's going to take my place when it's time for me to go.

I've wondered what kind of a chap he'll be, and I've wished I could take his hand.

I'd like to give him the cheering word that I've longed at times to hear.

I'd like to give him the warm hand-clasp when never a friend seems near.

I've learned by knowledge, by sheer hard work, and I wish I could pass it on.

To the fellow who'll come to take my place some day when I am gone.

Will he see the sad mistakes I've made and note all the battles lost?

Will he ever guess of the tears they caused or the heartaches which they cost?

Will he gaze through the failures and fruitless toil to the underlying plan?

And catch a glimpse of the real intent and the heart of the vanquished man?

I dare to hope he may pause some day as he toils as I have wrought, And gain some strength for the weary task from the battles which I have fought.

But I've only the task itself to leave with the cares for him to face, And never a cheering word may speak to the fellow who'll take my place.

Then here's to your health, old chap! I drink as a bridegroom to his bride.

I leave an unfinished task for you, but God knows how I tried, And my prayer today is that all the dreams may be realized by you.

And we'll meet some day in the great unknown—out in the realm of space.

You'll know my clasp as I take your hand and gaze in your tired face.

Then all our failures will be success in the light of the new-found dawn.

So, I'm drinking your health old chap, who'll take my place when I am gone.

Why Saloons Should Be Kept Out of the Fifth Supervisorial District

GROG OR MOTHER, WHICH?

The reasons for having no saloons in the fifth supervisorial district are the same old reasons that have been urged against dram shops in other places.

A saloon draws all the rougher element from neighboring places, especially on holidays and Sundays.

Drunkenness increases, rowdyism becomes common, shooting scrapes and other brawling become frequent.

The courts do more business while the sober taxpayer foots the bill.

An open saloon causes old drinkers to drink more and starts more youths on the slippery down-grade than ever come back.

A drunken man is a disgusting sight and a menace to the traveling public, especially to women and children.

A handy bar takes many a hard earned dollar that should have bought necessities of life for wife and children. Thus do the butcher, the baker, and the candlestick maker also lose thereby.

Property values fall upon the advent of a saloon.

Alcohol is a poison and injures the body just in proportion to the amount used. The digestive, the circulatory and the nervous systems are all heavy sufferers. An impaired body means a lowered moral tone.

To some persons an occasional drink works no great harm, but alcohol has the peculiar property of creating an increasing appetite for itself. It also weakens the will. No one can tell without the dangerous experiment of a trial whether his resistant powers are strong enough to keep him safe.

In addition to these shop-worn but o'er true reasons let me add these: "Tipping, if a benefit to anyone, save to the saloon keeper, is only so as a means of enjoyment. That is gives pleasure is a recommendation to anything. But the wise man sees to it that he does not pay too dear for his purchases. Are not the evils enumerated above too great a price to pay for the pleasure of drinking? If not, add to the cost—YOUR MOTHER'S BROKEN HEART."

Mother love is the strongest, the purest, the tenderest of any human sentiment. Men, you are all sons! Do you KNOW the knife thrust you give mother's heart when you come home to her reeking with the smell of liquor? Do you KNOW the cold grip of fear (FOR you, not OF you) that seizes her when she hears your unsteady step on the stair? Ah, me! the bitterness of death is her's at such times. Yes, she smiles when the world looks on, and tells what a good boy you are. But the walls of her room, could they tell the tale, would reveal a depth of misery and anxiety that would make the price of your hour of pleasure at the winecup seem heavy indeed.

Think of the hundreds of mothers in supervisorial district No. 5 and outlaw the saloon.

The Men and Religion Forward Movement

The Men and Religion Forward Movement, concerning which so much has been said in the local columns of The Gate City of late, is a movement to enlist the energies of "big business" in promoting religion instead of financing politics. It aims to convert men to the course of Christianity and to enlist them in active church work. The initial meeting was held in New York on September 18. Five hundred ministers and many laymen attended an afternoon meeting in the Broadway Tabernacle, some of the delegates coming as far as from Australia. Thirty trained church workers have been selected and these will proceed to organize committees of 100 in seventy-six principal and 1500 minor cities of the United States and Canada. By this systematic organization it is hoped to reach at least 23,000,000 church-going people. Such names as J. Pierpont Morgan, Cleveland H. Dodge, James H. Post, F. Fulton Cutting and Cyrus H. McCormick are mentioned as furnishing the sinews of war.

The movement contains great possibilities for good and is worthy of every encouragement. Considerable interest was aroused for it in Santa Ana by a recent sermon on the subject by Rev. Chas. H. Secombe, of the First Congregational church.

complete charts of the towns which they visit, showing religious and social conditions as they find them, such as nationalities, the number of saloons, how many labor organizations meet in the saloons on Sunday and whether the schools seem to be adapted to the 95 per cent of boys who don't go to college. With this information in hand it will be possible to apply efforts to local conditions intelligently and successfully.

VENICE TREATED GUESTS TO KITE FLYING AND "MUMS"

VENICE, Oct. 30.—Thousands of visitors journeyed to this beach to assist in the celebration of Chrysanthemum Day. The crowd started to arrive about noon, and at 1 o'clock there was a steady stream of visitors from the station down Windward avenue to Venice pier. Ten thousand large chrysanthemums were given away to the feminine visitors during the afternoon. Concerts were given by the Venice band both afternoon and evening at the St. Mark plaza.

During the afternoon T. W. Prior, president of the Good Government League of Venice, gave an excellent demonstration of the lifting power of his three large box kites. The kites were sent up from the Venice pier to a height of several thousand feet, carrying with each a life-size dummy of a man weighing fully 200 pounds. The kites were all sent up at the same time from one cable.

The Point of the Story
A mother was greatly worried by her small daughter's habit of running away. Thinking to impress the child with the danger of getting lost, she told her a vivid story of some children who ran away to go nutting. Night found them far from home and lost in the woods. With much are the mother told of a storm in the night and of the terrible distress of the parents and friends who hunted for the children until morning. She also told about the good breakfast prepared for the children, which they missed because they did not reach home till 10 o'clock. The little girl listened intently to every word, and the mother hoped that the story was making an impression. When she finished the child was silent for a few moments, as if expecting something more. Then she asked eagerly, "Did they set any nuts?"—Metropolitan Magazine.

Develop Individuality
Care should be taken in the large family that each child develops an individuality, says the London Sketch. Sometimes, especially in the case of girls, it is a good idea to send children to different schools. This seems an extreme measure, but is worth the consideration of the parents who find that their brood are dropping into slovenly habits of speech, into codes and rules of their own, and a general contempt and disregard of the rest of the world.

Citron Cake
Two eggs, one-half cup butter, one and one-half cups sugar, one-half teaspoon soda, one teaspoon cream of tartar, one teaspoon lemon extract and thinly sliced citron to taste. Flour to bake as thick as cup cake.

The National Political Conventions

The national political conventions of 1912 will in all probability be as interesting as any that have been held in the past. There is entire uncertainty as to the nominees of the Democratic party; as the time goes on uncertainty as to the nominees of the Republican party increases. It is likely that the candidates before the Democratic convention for first place on the ticket will number between four and six, and all with fairly even chances, while if there should be a serious break away from Mr. Taft, it is not at all certain that the elements which would detach themselves could be claimed altogether in the interest of any present aspirant or known possibility.

There will be uncertainty enough, at all events, up to the very opening of either convention to give the proceedings extreme interest. This leads to the other consideration that national conventions as full of uncertainty as those of 1912 will be are certain to attract immense crowds. They will be valuable, therefore, to those cities in which they shall be held, for they will make business for the hotels, restaurants, public service corporations and mercantile establishments.

The Republican national committee meets in December, the Democratic national committee in January, to fix time and place for holding their respective conventions. It seems to be taken for granted that the Republican convention is going to Chicago, but just why, nobody seems to understand. There is no question about the ability of Chicago to handle great conventions; this ability has been demonstrated; but there are other cities that might at least be tested along this line. A number of cities, East and West, are already in the contest for the Democratic convention, among them Kansas City, St. Paul, St. Louis and Baltimore. The latter city is greatly favored, and if the convention is given to the east it will probably be chosen.

But there is nothing settled with regard to either convention; nothing at least that is not subject to change. The contest is still open, and it would seem to be only along the line of perfectly legitimate enterprise for any city capable of caring for a great crowd, to desire of the resulting benefits, to enter the competition and make its fight for recognition and victory.

Educating Farmer Boys

PHILADELPHIA RECORD

There is no more promising feature of educational development at present time in the United States than steadily-increasing attention given to teaching farmers' boys how to farm. To get out of the soil the largest measure of production at the smallest cost of labor and outlay is probably, taken all in all, the most widely beneficial undertaking in which men may engage. To instruct the tillers of the soil how this may be done is a far-reaching philanthropy. Perhaps in no other country of the world has there been a more wasteful tillage than in the United States since the white man displaced the red man.

Now that we have reached a time when the demand of a swarming population for foodstuffs has practically overtaken home supply, we are suddenly compelled to consider how best we may provide for emergent future conditions. The obvious and the rational and entirely possible thing to do is to instruct our farmers that they may hereafter make two blades of grass grow where one grew before. This is the task set before our agricultural colleges, and it is a pleasure to note that they are buckling down to their work in fine style, and that there is a constantly growing public appreciation of their efficiency.

It is a pleasure to observe that the wide-awake British Ambassador at Washington, noting the progress in experimental farming and scientific instruction for farmers' boys in American schools, has brought the matter to the attention of the British public as worthy of imitation. The drift away from the farm to the towns is a perilous movement, common to the most advanced nations of the world. The better education of the farmer is recognized as one of the most potent means of turning the tide back to the land. Much has been

MISS FOLA LA FOLLETTE WEDS GEORGE MIDDLETON

WASHINGTON, Oct. 30.—The marriage of Miss Fola La Follette, daughter of Senator and Mrs. Robert M. La Follette, and George Middleton of New York took place at noon yesterday in the La Follette home on Wyoming avenue.

The Rev. U. G. B. Pierce, pastor of All Souls' Unitarian church, officiated. Only the families of the bridal couple and a few intimate friends were present at the ceremony, which was followed by an informal wedding breakfast. There were no invitations to the wedding and there will be no announcement cards.

Mr. and Mrs. Middleton left Washington for New York this evening, where they will make their home. The bride will not abandon her stage career.

AULD LANG SYNE CLUB

Meeting Held in Los Angeles With Former Garden Grove Member as Hostess

The Auld Lang Syne Club met in Los Angeles at the home of Mrs. Dr. Taylor, on Thursday afternoon, Oct. 26. The meeting proved to be a very pleasant one, although for various reasons several members were detained at home.

The hostess, who was formerly Miss Jessie Lawton of Garden Grove, proved herself a charming entertainer and the time of departure came too soon.

Chrysanthemums were used to decorate the living room while carnations lent their charm to the dining room.

The out-of-town guests were: Miss Percy Head and Mrs. Mabel Lowell of Santa Ana; Mrs. Lillie Harrison, Mrs. Carrie Chaffee, Mrs. Estelle Harper, Mrs. Agnes Stanley, and Miss Bertha Robinson, Garden Grove; Mrs. Sarah Newsum and Mrs. Rose Johnson, Rivera; Mrs. Wynona Menzies, Glendale, and Mrs. Lawton and Mrs. Mary Everett of Huntington Beach, mother and sister of Mrs. Taylor. Those residing in the city were Mrs. Hough, Mrs. Georgia Fitch, Mrs. Mary Vertrees, Miss Nettie Chaffee, Mrs. Kate Sprules, Mrs. Flora Johnson and Mrs. Ora Helderle.

Dinner Party for Guests

Mr. and Mrs. J. W. Babbitt served an elaborate dinner at their home, 320 Cypress avenue, Sunday, in honor of Eastern relatives visiting here.

The guests of Mr. and Mrs. Babbitt were Mr. Babbitt's sister, Mrs. Ruth Blenis and niece, Mrs. and Mrs. Chas. Patrick with their daughter Alta, all of Hiawatha, Kas.

Others to enjoy the occasion were Mr. and Mrs. Haver of Fullerton, Mr. and Mrs. Lloyd Babbitt and little daughters, Worth and Evelyn; Misses Adeline Mitchell, Nancy Haverfield, and Mr. Joe Babbitt.

Don't forget Moose dance tonight.

The Vocal Art

In all the realm of music there is nothing which makes so direct an appeal to the soul of the listener as that music produced by a beautiful human voice. It is, indeed, God's perfect instrument.

Given a soul to express through it an intelligence to play upon it, there is no instrument which has an equal capacity for expression.

Yet how rare are the singers who really satisfy us with what they sing or how they sing it! How often are we, indeed, distressed rather than satisfied!

There are many causes contributing to this fact, a few of which we propose pointing out in a series of vocal chats which we shall undertake in this space. We invite you to follow them.

504 1/2 N. Main St. Main 214.

EBELL CLUB MEETING

Splendid Program and Making of Plans for Near Future Features of Day

The regular meeting of the Ebells Society was held in Elks Hall Saturday afternoon, a very large number being in attendance, and Mrs. Crook presiding. The business, aside from reports, consisted mainly in discussion of the luncheon to be held preceding the program of the November meeting. A charge of twenty-five cents will be made and all seats must be reserved at least one week in advance of that date. It was also decided to appropriate the proceeds of the art and crafts exhibit, in which the Ebells is participating this week, to the fund for the Children's Day Nursery. Much interest is being shown by Ebells members in the arranging of its part of this exhibit, which will no doubt be increased since its portion of the proceeds is to be given to such a worthy object.

The program for the afternoon was delightful and reflected much credit upon the entertainers, besides being greatly enjoyed by the club members. A presentation of Longfellow's beautiful Indian poem, "Hiawatha," was given by Miss Rose Wilson, a reader of talent, who was formerly dramatic teacher in several Eastern colleges. The poem was arranged as a melodrama, according to the original meaning of that term, and Mrs. Wilson interpreted it with great sympathy and beauty of expression. Mr. Alan A. Revell accompanied the reader with the piano, the music used being chosen from the original folk songs and adapted to the poem. Its weird melody, first in strong, warlike tones, then in the clear, rippling notes which always followed the mention of Minnehaha, or laughing water, depicted the scenes of this beautiful love story with a new and added charm. The program was greatly appreciated by the Ebells members and their guests.

Powell-Northcross

One of the well loved girls of Orange and Santa Ana, for she was well known in both cities, Miss Eleanor Northcross, was married Saturday afternoon to W. T. Powell, a young business man of Los Angeles. The wedding took place at the home of the bride's parents, Mr. and Mrs. Marshall Northcross, near Orange, in the presence of the immediate relatives, the company numbering about thirty. The wedding ceremony was pronounced by Rev. C. C. Bentley of Orange Christian church, the bride and groom taking their places for the solemn rite unattended. The handsome bride was charming in a natty traveling costume, of brown with all accessories harmonizing. The decorations for the wedding event were beautiful and elaborate, masses of lovely chrysanthemums being used. Refreshments were served after the ceremony, and following congratulations and the collation, Mr. and Mrs. Powell departed on a honeymoon trip to a destination which they guarded as a secret. Later they will go to Los Angeles for residence.

The bride is very well known here, having been born and reared near Orange. She attended high school in Orange and has been prominent particularly in Orange social circles.

Art Study Club

The Art Study Club will meet with Miss Cubison at 1119 North Main street, Tuesday evening, Oct. 31. Subject, Egyptian, Assyrian and Greek Sculpture.

DEDICATED BRIDLE PATH

Riding Club of Los Angeles Made First Hoof Marks of Road of Scenic Beauty

One of the typical organizations of the Golden State is the Out West Riding Club of Los Angeles. It is significant of the glorious out-of-door life of this land of sunshine and the beautiful and swept by balmy breezes. The Out West Club yesterday participated in a unique dedication, of which the Los Angeles Examiner says:

"One hundred men and women of the Out West Riding Club opened the new bridge path at Griffith Park yesterday afternoon.

"Dressed gaily in the club colors and mounted on dashing horses, the riders left Westlake Park early and camped at the end of Western avenue on the Hollywood side of Griffith Park. After an elaborate barbecue dinner, the party began the dedication.

"The exercises were simple. An Indian file was formed and at 2 o'clock the long line of equestrians started forward and the first hoof marks of the hundreds of thousands to come in future years left its imprint in the new bed of the trail.

"The path was built by the city and fostered by Superintendent Brown of Griffith Park. It is for saddle horses only. In places it narrows to five feet, skirting the canyon wall, and at other spots it is fully fifteen feet wide. It winds in a gentle, upward slope past canyons and the tops to the crest of the Griffith Park range, where it starts the descent, terminating at the main entrance to the park in a heavy grove of live oak trees.

"Magnificent stretches of country can be viewed from the trail and for that reason it is considered one of the most useful to nature lovers in the entire Southwest.

Plans are now under way to extend the path to the river bed. The path is little more than five miles long and if extended will give riders eleven miles of the prettiest scenery in Southern California."

For Daughter's Birthday

On Nov. 28, Mrs. A. E. Hendricks entertained in honor of her granddaughter, Estella Napoleon, the occasion being her eleventh birthday anniversary.

The color scheme was pink and white, and the table was beautifully arranged with smilax and pink flowers. Each little guest was given a pink basket filled with candies and also was served with ice cream and cake. One cake had little colored candles on it which the girls in turn blew out, making many good wishes for the health, wealth and happiness of their young hostess. The children played games until the shadows began to grow long, when all departed after thanking their hostess for a most enjoyable time. Miss Estella received many beautiful presents in honor of the day.

Those present were: Hallie Adams, Martha Pickering, Esther Wilfong, Semone Thomas, Margaret Leighton, Estella Napoleon, Esther Otto, Mildred Webster, Esther Bird, May Carter, Marian Webster, Laurine Deatweller, Harvone Deatweller, Vernon Cotter, Harvone Napoleon.

Several ladies assisted Mrs. Hendricks. They were Mesdames Wm. Cotter, J. C. Biggs, Wyota Adams, Geneva Wilfong, Francis Hall and A. E. Bird.

Art and Crafts Exhibit

The arrangements for a fine display for the Arts and Crafts Exhibition and Chrysanthemum Show are about complete. The Ebells is well up in its plans, and has committees at work on an exhibit which promises to eclipse last year's effort.

The committee from the Parent-Teacher Association, numbering some forty of our most interested women, will meet tomorrow afternoon at 2:30 in Spurgeon's Hall to look over the exhibit and to make final arrangements for the display of the Art Department, Domestic Science, Sloyd and Kindergarten, also the Chrysanthemum Show.

Don't forget to save these dates: Friday night, Nov. 3, 7:30 p.m.; Saturday, Nov. 4, and Saturday night at 7:30, Spurgeon's Hall. What should interest us more than our own public school children?

Hallowe'en Social

The Royal Neighbors of America will give a Hallowe'en social Tuesday night, Oct. 31st, at Fraternal Brotherhood Hall. Everybody is cordially invited. A good time is provided all who come. There will be no charge for admission, but a small charge for refreshments will be made.

—THE BARTLETT MUSIC CO., OLDEST, LARGEST, STRONGEST PIANO HOUSE in the Pacific Southwest, are just finishing up the big piano sale in Santa Ana—in fact we are through and yet we have some pianos left—some of the best ones. We do not want to ship these away. Why not buy one today or tonight or Saturday or Sunday night. High grade, fully guaranteed not only by

The Best Value in BOYS' UNION SUITS In America

VANDERMAST & SON 110 East Fourth St.

Personals

Mrs. H. H. Bonney of 1905 Bush street returned Friday from a visit of five months in the East. She spent four months with a daughter in Minnesota and a month with another daughter in Memphis, Tenn. Although Mrs. Bonney enjoyed her visits very much indeed, she is glad to get back to California.

Miss Mary Wright, daughter of Mr. and Mrs. Geo. L. Wright, returned home Friday evening from an extended trip visiting with relatives and friends in Chicago, Kansas City and several points in Iowa. Miss Wright was accompanied home by her cousin, Miss Minnie Stander of Cresco, Iowa. Miss Stander will spend the winter in California.

Miss Grace Patterson of Huntington Park was the over Sunday guest of Ruth Collins.

Miss Edwina Collins of the Recorder's office and Miss Mary Smart of the Hickox Studio were guests at Highland Park of Misses Janet and Fannie Smart over Sunday.

Rev. and Mrs. A. L. Dearing were the guests today of Mrs. Dearing's sister, Mrs. Hattie Walker, of Los Angeles at a pleasant luncheon in her city home. The Dearings made the trip to the city on an early morning car and returned this evening.

Miss Faith Shaw returned Sunday morning from Los Angeles and Lankershim where she was an over Saturday and Saturday night guest of friends.

Miss Bessie Trumpey has gone to Los Angeles for a month's stay. Her mother, Mrs. S. Trumpey, accompanied her to the city this morning, returning this evening.

Mr. and Mrs. John Awe made a trip to the Angel City this morning.

Mrs. J. C. Bailey and Miss Kassa Bailey were morning passengers to Los Angeles.

Walter Condon made a morning trip to Los Angeles.

N. N. A. Uhm is sufficiently recovered from his recent illness as to be able to make the trolley trip to Los Angeles today.

Mr. and Mrs. C. M. Glessner spent Saturday evening in Los Angeles, guests at a reception at the Country Club.

The large circle of friends of Mrs. D. M. Burns will be glad to know that she has arrived safely at Springfield, Ohio, where she has gone for a visit of indefinite length. On the way to her old home, Mrs. Burns rested herself by stops at Portland, Vancouver and Chicago. Mrs. Burns' health has been so delicate for a long time, that considerable anxiety was felt over her taking so long a trip, but she endured the journey without any discomfort.

F. B. Dyar and family came here the latter part of last week from Creston, Iowa. Since their arrival they have purchased a home at the corner of Chestnut and Birch streets and are now occupying their property and expect to make it their permanent home.

Miss Pauline Davis of Los Angeles, was an over-Sunday visitor with her sister, Mrs. Ben Turner.

The residence property of Clarence West, 1114 West Third street, has been purchased by L. H. Neff, of Lincoln, Neb., who with his family, came here six weeks ago and has been visiting with his nephew, W. B. Dennis, at Orange. The Neffs have taken possession of their new property.

Card of Thanks

We feel grateful to all friends who aided us in our time of sorrow. We wish to especially thank the friends for their kind words and beautiful flowers.

HAROLD MILLER, MARY D. MILLER.

DIED

FASSE—In Huntington Beach, Monday, October 30, 1911, Mrs. Fasse, of middle age.

Remains will be held here in Smith & Son's undertaking parlors waiting the arrival of the husband of deceased from Colorado.

TUTTLE—In Balboa Beach, Sunday morning, October 29, 1911, of apoplexy, Burton Tuttle of Ontario, aged 69 years.

Remains were shipped to Ontario yesterday afternoon by Smith & Son. Deceased was found dead in a rooming house yesterday morning.

FAMOUS EDITOR SUDDENLY DIES

Joseph Pulitzer Expires on the Yacht Liberty Anchored Off Charleston, S. C.

NEW YORK, Oct. 30.—Joseph Pulitzer, proprietor of the New York World and the St. Louis Post-Dispatch died at 1:40 o'clock yesterday afternoon aboard his yacht, the Liberty, anchored off Charleston, S. C.

The last words of Mr. Pulitzer were: "Leise; ganz leise." (Softly; very softly.)

This was to his German secretary, who was at his bedside when he awakened from his sleep to read to him something of the reign of Louis II of France. The secretary had begun a chapter when the sufferer, with a look of pain, turned toward him with the whispered request. Only a few minutes later he became unconscious.

Heart failure, following an illness of forty-eight hours, is given as the cause of death.

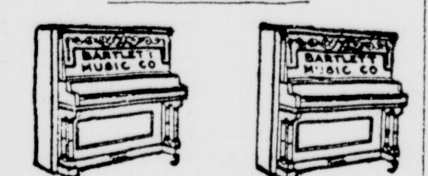

Mrs. Pulitzer and her youngest son, Herbert, were with Mr. Pulitzer when he died, having arrived after he had lost consciousness.

THE INWARDNESS OF PILES The Cause is Inside. Use HEMROID, the Inward Remedy

—Inward treatment is the secret of the successful cure for piles. HEMROID, sold by the Rowley Drug Co. and all druggists under a strict money-back guarantee of satisfaction.

HEMROID (sugar-coated tablets) acts inwardly and lives up circulation of blood in the flabby, swollen parts, curing permanently where salves, etc., only give relief.

HEMROID costs but \$1 for 24 days' medicine. Dr. Leonard Co., Station B, Buffalo, N. Y. Write for booklet.

—Only a few left. We have sold pianos during this Special Sale. You can now have one at a low figure on easy terms. We must stop selling at never-again prices. Bartlett Music Co., Santa Ana Book Store.

Team, implements, etc. Price \$33,000. Income this year off 10 acres oranges \$6000. Will take Los Angeles up to \$2000. Phone 2903, Orange.

COSTS THUM \$5000 A YEAR TO BE MAYOR

Pasadena's Millionaire Executive Spends \$8000 for City on \$3000 Salary

PASADENA, Oct. 30.—When Mayor Thum retires at the conclusion of his term of office—he declares he will never be a candidate for mayor again—his bank account will be depleted \$10,000. With a salary of \$3000 per year, the Pasadena mayor is paying out money at the rate of \$8000 per year, to support various offices which, he believes belong to every well-regulated city.

Maintaining that every city can profit in the long run by paying the expenses of an efficiency bureau, the mayor has created such a bureau, and its support costs him \$2750 per year. He pays its head, Robert S. Allen \$2000 per year for his services and \$750 per year to an assistant of Mr. Allen.

Doubles Clerk's Pay

The city provides but \$750 per year for the mayor's secretary. This amount, the mayor asserts, is too small, and I. N. Smith, the mayor's assistant, gets \$750 in addition—paid by William Thum.

A complaint came from the residents of the dry tract some time ago, owing to an insufficient supply of water in the vicinity. Mayor Thum did all he could to remedy the difficulty, and it is rumored that he paid \$2500 from his own bank account to a local water company for the purchase of its pipelines and property. Up to date the mayor has paid \$2000 to various charitable organizations.

GUGGENHEIMS WIN OUT IN FEDERAL COURT

JUNEAU, Alaska, Oct. 30.—The Copper River Railroad, owned by the Morgan-Guggenheim syndicate, has won a suit wherein others contested its right to the ownership of the Cordova tidelands, which are absolutely necessary for its maintenance of deep-sea terminals. The decision was rendered by Judge Thomas Lyons of Alaska's first judicial district.

The railroad located its right of way along the tidelands of Cordova Bay. Later Jack Dalton and A. L. Lowe located mining claims on the upland under which they claimed the right to extend their boundary lines over their right-of-way. Long and complicated litigation followed.

THOMPSON'S TRIAL BEGINS TOMORROW

Tomorrow in Los Angeles will begin the trial of Attorney Fred I. Thompson of Los Angeles, who lived at Newport Beach during the summer and participated in a number of trials in this county. Thompson is charged with receiving \$15,000 stolen from the Los Angeles postoffice by Orlando F. Altorre, a postoffice clerk. Mrs. Thompson is jointly charged. Altorre was pardoned by President Taft that he might testify against Thompson.

NEW REALTY FIRM

E. C. Croft who came to Santa Ana recently from Omaha, has formed a partnership with O. L. Bergen for the purpose of doing a general real estate business. Their office is located at 217 West Fourth street.

Today's TRIBUNE contained a number of Santa Ana views and a very interesting article on Santa Ana written by Walter V. Woehke. Any one wishing extra copies of this issue will be supplied at the Santa Ana Agency, 306 N. Main street 1 cent each, wrapped for mailing.

Public Announcement

I desire to announce that the law business formerly conducted by Montgomery & Tarver will be continued by me at the same office and I will endeavor to deserve the continued confidence and patronage of clients of the old firm.

(Signed) B. E. TARVER

Weber Piano taken in on trade toward an Autopiano, will be sold very cheap rather than ship to our Los Angeles store. Bartlett Music Co., Santa Ana Book Store.

LOST TOOTH IN A BUMP WITH BUGGY

Deputy Constable Gives Aid in Accident for Which He Was Not Responsible

A boy living with Al Comer on South Main, riding a bicycle ran into a buggy Saturday night with disastrous results for the boy. The buggy was being driven by Deputy Constable Law, who was returning from Delhi. Law was on the right side of the road, but it was dark and the boy ran into the front wheel and was thrown under the buggy. The bicycle was smashed, and the boy lost a tooth and received cuts on the lips and forehead. Because the boy is poor, although Law was in no way to blame for the accident, as the tracks plainly showed, Law kindly secured a physician for the boy and took the bicycle to the repair shop to be repaired at his expense.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

Notice of Dissolution of Partnership

Notice is hereby given that the partnership heretofore existing between the undersigned has been dissolved and that the business heretofore conducted by the undersigned as partners under the firm name of Warner and Bird, and all liabilities of said firm and business, were transferred to and assumed by the Mirror Theatre Company, a corporation, on Sept. 1, 1911.

Dated, Oct. 28, 1911.

SCHOOL REVENUES DEPEND UPON AVERAGE ATTENDANCE

In a recent bulletin to teachers from the office of State Superintendent of Schools Wyatt appears the following:

The most important change that has been made in recent school legislation is the basing of school revenues entirely upon the average attendance of the previous year. This puts a peculiar responsibility upon the teachers of the state. Upon their reports based on that record, depends the money that the school and the county and the state will receive the next year. This new plan was adopted in the belief that this most important matter could be entrusted to no one so trustworthy, so conscientious, so high minded as the teachers of the state.

Wherefore, brethren, noblesse oblige!

Thus, the keeping of the daily register becomes a matter of legal importance, a sworn record of actual fact, a fixed and immutable thing upon which all our money is distributed. Each teacher in the state is responsible for the record he makes—and these records stand for a long time, many years into the future. The teacher is responsible not only to his own conscience, but to the laws of the state. A falsified report, resulting in unfair distribution of moneys in the eyes of the law would be perjury or embezzlement—very serious matters, indeed.

First of all, let us get out of our minds all notion that the keeping of the school register is in any way a "sentimental matter"; that a good record is a reward to the pupil, a bad one a punishment; that of a bad record he may be marked present; that a girl who gets in before the "tardy bell" should not be marked tardy; that pupils sent home for a half holiday or a whole holiday or a week holiday can be properly marked as present. The school register is simply a cold record of fact, a setting down in black and white of a sworn statement showing which pupils were actually in the school during each quarter day of the term, and which were not. It may be necessary and desirable for pupils to be absent at times, but your record must not show for sake of revenue that they were not absent. If the absence is good it is worth the money it costs, and your school should pay the honest price.

Teachers may well take a serious view of their responsibility in the fair and honest distribution of the great school revenues of the state and county. The state is entitled to a square deal at their hands. None of us can afford to do any mean little tricks or be party to any sharp practice for the sake of a few dollars extra into the coffers of one school at the expense of the others. Remember that we have a certain sum to divide as fairly as we can among them all. If one gets more than his rightful share, it flies from his fellow, who is just as needy. Worse still, public confidence is destroyed and our whole school structure is weakened. Honesty is peculiarly the best policy in this distribution of school money.

The new registers will be out in a short time. They will provide a little square for each quarter day. No quarter must be less than sixty minutes in length. No quarter may be counted as present unless the pupil was there the whole of the quarter. Thus, a pupil tardy or excused at any time of the day loses a whole quarter day. The number of minutes present during that quarter should be recorded, but the quarter does not count in the total unless it was all present. Doubtless these things will be unsatisfactory to some, objectionable and open to criticism to many. But the only thing to do is to take them as they are given to us and all use them as best we can. All must be governed by the same rules if we would have fair play.

Now, in some cases, these rules seem to work hardship. It is difficult to have four-hour days for double session schools. Some schools do not like to keep the younger children for hours per day. Some schools dismiss early on Friday afternoon. Night schools can not have four-hour sessions.

In all such instances the answer is the same. When a school finds it impossible or undesirable to maintain the standard length of day, well and good. Let it do freely what is best for its people. But it should not ask or expect quite so much money from the public coffers as if it had met the standard. Let it lose cheerfully a small fraction when it falls short of its fellows and let it go at that. All good things in this world must be paid for.

As during the last year the registers will be in two forms. The large one, bound in boards, is for rural schools, and the names of pupils need writing only once per term. The small one, bound in manila paper, needing names in manila paper, is for city schools. It is only large enough for a single year, and the city superintendent is supposed to bind all the registers of his town into one volume at the close of each year.

Of course, if the rural teachers prefer the city register or vice versa, it is all one to us. The county superintendents distribute them and they order either or both kinds at their pleasure.

Whether to use the old register to the end of the term or put in the new one as soon as it comes is a matter of individual choice, depending on circumstances.

Every little while some one writes in asking us to get a legal opinion from the attorney general upon this, that, or the other local dispute. It is the evident notion of the writers that this is a very simple and easy little thing to do, only requiring us to pop our heads into a neighboring office to say, "Now, General, how is this thing any how?"

As a matter of fact, the main offices of the attorney general are in San Francisco. Oral opinions are never given. We can properly ask for opinions only upon matters affecting the State Office. It always requires several weeks to get an opinion.

If any one really needs such an opinion he should get it through the district attorney of his own county. The law specially provides for the district attorney securing such opinions upon matters about which he is himself in doubt.

The appointment of trustees for the full term by county superintendents is causing some discussion in the state. It often puts an unpleasant responsibility upon the superintendent in the case of districts that fail to hold an election, a responsibility that really ought to be borne by the people themselves when it entails the change or continuance of the whole policy of the school. Superintendent Wilson of El Dorado County advocates a law allowing the superintendent the option of appointing trustees or calling a special election in the district to settle the matter.

In the internal management of the school, trustees are, and ever must be, dependent upon the teacher. Nothing can really be effectively accomplished without the genuine and heartfelt interest, sympathy, co-operation of the teachers.

Ergo, if there is some piece of apparatus or school equipment or some plan or improvement that the teacher is keenly interested in; something she really cares about and talks about and asks for three or four times; why then the trustees would better get it. If her heart is in it, it will be successful, and it will be the means of working great good to the youngsters, no matter what it is. Enthusiasm and success are a valuable lesson to young people, expended upon any particular object whatever.

On the other hand, you waste your thunder to hand over some splendid map or globe or other new educational device if the teacher doesn't know it, doesn't love it, doesn't ask for it before it arrives. She will smile, she will welcome it, she will say "How nice," she will give it a place of honor in the schoolroom. But it will never breathe, it will never enter into the hearts or the heads of the children. It will accumulate dust, it will fall into the sere and yellow leaf. And the well-meaning trustee who bought it can't help himself, and can't do a thing! Better never buy anything for the school from an agent unless your own teacher had been asking for it before the agent struck the county.

"It makes me sick," said a wholesome, hearty superintendent a few days ago "to see some of my districts disputing and scrapping and refusing to admit children from other districts without pay. Why, confound them, don't they know that the schools are supported by the state and by the county, and not by the districts? Don't they know they are for the benefit of all children and for the convenience of the people? What business have they to want pay from

a child who wants to go to school? They don't understand the spirit or the theory of our school laws at all! When there is room for the children there ought to be no question about their admission."

In this connection it may not be amiss to remind every one of the new law requiring teachers to keep the attendance for children residing outside the district, so that the superintendent may transfer it to the home district at the end of the year. School people should watch the working of this law and be ready to report on it as good or bad at the end of a year or two. It might be well for trustees having children attending outside districts to keep track of the matter, make lists of the children and notify outside districts early in the year that the attendance of such and such children should be kept separate as it will be claimed by the home district.

The new law requires county superintendents to register school orders for which there is no money in the treasury, after which they bear interest. The superintendent should be very cautious about this registering of unpaid orders, as it will make him peculiarly responsible for them. For instance, he must not thus give a standing to orders that can not be paid from the current year's funds, nor to orders that must wait till an 8 months' term has been maintained. He must keep his weather eye out for wildcat orders for books and apparatus that are off color in one way and another. Undoubtedly the superintendent has the same powers in refusing to register as he has in refusing to pay doubtful orders.

NOT THE ONLY ONE
There Are Hundreds of Santa Ana People Similarly Situated

—Can there be any stronger proof offered than the evidence of Santa Ana residents? After you have read the following, quietly answer the question.

William Thursty, 417 East Walnut street, Santa Ana, Calif., says: "Off and on for years I was bothered by my back and kidneys. To stoop or walk a little distance made the dull, heavy ache in my back more severe and my rest was badly broken. Further evidence of fault with my kidneys was shown by a heavy sediment in the kidney secretions. Reading about Doan's Kidney Pills, I got a box at Dean's Drug Store and soon after I commenced their use, I noticed improvement. My back became strong and free from pain and the difficulty with the kidney secretions was corrected. (Statement given March 8, 1907.)

A Permanent Cure
On August 16, 1909, Mr. Thursty was interviewed and he said: "I have not changed my opinion of Doan's Kidney Pills since I recommended them over two years ago. The cure they effected has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

ANOTHER WEEK WILL CLOSE SUGAR CAMPAIGN

Oxnard Courier: Another week will see the close of the present sugar campaign. Although rumors have circulated that there was some possibility that the factory of the American Beet Sugar Company would run later than anticipated, authentic statements today gave the date of closing this season as either November 4 or 5. The latter date will probably be given preference, for it closes the week.

The campaign this year has been unusually successful, the daily average of beets "iced and the amount of beets used during the course of the season being of a record breaking nature. The work of the local factory has undoubtedly attracted attention wherever the sugar industry is followed.

Word from Huntington Beach this morning was to the effect that the hundred days' campaign of the Holly Sugar Company near that city had come to an end, this being the close of the first season for that concern.

25 WAR VESSELS PORT IN SAN DIEGO HARBOR

SAN DIEGO, Oct. 28.—Twenty-five of the twenty-seven vessels comprising the Pacific fleet arrived in San Diego bay at noon yesterday. The Maryland is being repaired at Mare Island, and Admiral Thomas expects it to join the rest of the fleet on their arrival at San Pedro. The Oregon reached here this morning. It is under the command of Captain Pond, who has been detached from the Pennsylvania for that service. The fighting force of the western sea will remain here until the evening of October 31, when twenty-six of the ships now here will sail for San Pedro.

Dr. H. M. Robertson, Physician and Surgeon, Office Cor. Third and Main, opposite City Hall. Both Phones.

DO YOU
Keep a bank account? If not, why not start one with us at once? Your check book will quickly settle all disputes as to bills you have paid. The check stub shows the record, and the cancelled check, which we return to you, constitutes a positive and undisputable receipt. Your pass book shows you the amount of money you have handled from time to time, and will be a good sign of your advancement and prosperity.

To NEWCOMERS and those WHO do their BANKING out of town:

Do your banking with us and establish your CREDIT by having your checks circulate in your own locality. The above Banks offer to the banking public the advantage of their modern facilities developed and perfected by successful service to depositors.

ADVANTAGES OF A CHECKING ACCOUNT
In the regular course of business the depositor receives checks on many banks.

It is not necessary for him to present these checks for payment at the banks on which drawn, but he may deposit them here, and this bank collects them for him through the Clearing House, without charge, and credits them to his account.

Checks on out-of-town banks may be deposited in the same way, for collection.

OUR SAFE DEPOSIT DEPARTMENT
affords absolute protection for paper and valuables. Every year more people are becoming convinced of the need of safe deposit vaults. Every day the fact is becoming better known that the peace of mind gained by the use of a box in a burglar and fire proof vault is worth many times the price of the box rent.

WHILE the Kansas Tin Shop does not object to the head-lines that has graced our advertising space for the past few days, we are prone to think that the author of said head-lines was trying to "poke fun at us."

Had the editor of this 2nd section of the universe been guilty of the deed he might be accused of egotism, but we plead NOT GUILTY. We are negotiating for a definite place wherein to advertise our goods and incidentally—to have our "say" on the great questions and problems that interests the world in these latter days, all of which will contribute to the "safety of the nations" if we succeed in our plans.

We have had lots of fun "doin' bizness" for the past half century and we want to tell of it, because it may help some tired soul to forget his weariness.

It used to be that we could get some fun by guessing on the problem of supply and demand as it affected prices of the goods we handled, when we hit the winning side we could smile and when we guessed the goods were going up and so bought largely, only to find that the "bottom had dropped out," we tried to look pleasant and guessed again, but now we dismiss the question of supply and try to find out what the nail trust and the iron pipe trust and the galvanized iron trust and the bath tub trust and the tin plate trust is going to do.

There is some fun that goes with the information that they are playing with the market and so we buy and sell and come out on the winning side half the time.

Occasionally some good Christian customer comes in and says that his wife wants a milk pail just like the one she bought two years ago and he would like a cross cut saw and an axe equal to those he bought of us a long time ago. It does us lots of good and helps distribute the fun of doing business.

PEACE AND SAFETY A GREAT DELUSION.

God's Times and Seasons

Maturing.

NEW DISPENSATION OPENING

Pastor Russell in Glasgow—The Divine Plan Diversified but Orderly—Age Follows Age in an Uplifting Process. Not Evolution but Reconstitution.

Glasgow, Oct. 29.—Pastor Russell gave two discourses today at St. Andrew's Hall to large and attentive audiences. We report his discourses from the text, "Of the times and seasons ye have no need that I write unto you, for ye yourselves know perfectly that the day of the Lord so cometh as a thief in the night. And when they shall say, Peace and safety, then sudden destruction cometh upon them as travail upon a woman with child and they shall not escape. But ye, brethren, are not in darkness that that day should overtake you as a thief. Ye are children of the light."—1 Thessalonians v. 1-5.

The world is not expected to understand the Divine times and seasons, plans and purposes. The Redeemer declared that the Father hath hidden these things from the worldly-wise and prudent and has revealed them unto babes—the humble-minded, the footstep followers of Jesus. Matthew x. 26. "The secret of the Lord is with them that reverence him, and he will show them His Covenant."

"The Wise Shall Understand"

The Prophet Daniel, referring to the present age, declared, "None of the folked shall understand, but the wise shall understand." (Daniel xii. 10.) To understand the secret purposes of the great in advance of their accomplishment implies a closeness and touch and acquaintance out of the ordinary. And God's children, begotten of the Holy Spirit, are privileged to know the things of God—"ye, the deep things." The speaker likened this relationship between God and His saints to wireless telegraphy. God's people have conversed in harmony with Him—His Word and His Spirit. These in receive much of the deep things of God. The world has no coherency at all—no means, therefore, of communication with the Infinite. The warm Christian has, indeed, a comforter in the Holy Spirit, but it is not tuned to the proper key and is, therefore, not prepared to receive the deep things of Divine communication.

Our world for six thousand years has been a battlefield on which the hosts of darkness have largely prevailed over the comparatively small number of children of the light, who, as an enemy's army have stood forth for God, the Redeemer, the brethren and the Truth against the "Prince of this world"—Satan. Moreover the children of light have been hindered from using the "eternal weapons" of the children of darkness. They may not render evil for evil nor slander for slander. They may only do good and bless those who revile them.

Harvest Time Is Here

Is this condition of things to continue forever? Does God intend that all eternity there shall be this battle between light and darkness, with the darkness in the ascendant and control? No! The Bible declares that a great change and a New Dispensation is at hand, in which the order of affairs will be reversed.

The Lord has been doing a work during the period of the reign of sin and death. He has been selecting two classes of children of the light, both to be used in the great world-wide work of the next Age. God refers to His work in agricultural terms; for instance, with the Jewish nation, He did a plowing, harrowing, sowing, cultivating and reaping work. Their plowing time preceded the entrance of the nation into Canaan. The Law revelation was the sowing. The reaping of the Age was at its close; Jesus was the Chief Reaper. His apostles were associates. To them he said, "I sent you forth to reap that harvest ye have bestowed no labor; men labored and ye are entered to the fruits of their labors." The fruits that reaped were gathered into the Gospel garner at Pentecost and after fiery tribulations the field was reaped of its chaff.

This Gospel Age has similarly been a time of plowing, sowing and reaping. The tribulations of the early church were associated with the sowing of the precious seed. Again we are in a harvest time—"The harvest is the end of the Age." This time the gathering of the fruitage will be to still higher plane—"to glory, honor and immortality" by participation in the "first (chief) resurrection." Then will follow the cleansing of the field by fiery troubles—"a time of trouble such as never was since there was a nation." That trouble time will be a plowing and harrowing time of a new dispensation for a world-wide crop under the most favorable conditions. These three different ages, however, produce different crops—as different as their conditions.

THE MARKETS

DAILY CITRUS REPORT OF EASTERN MARKET

NEW YORK, Oct. 29.—Market is strong on small-size Valencia. Higher on lemons. Cloudy.

VALENCIAS	Avg.
Old Mission, cv, Chapman	\$6.80
Old Mission, ch, Chapman	5.15

Red Globe	\$1.50
LEMONS	
Quail	\$5.60
Coyote	5.20

LOS ANGELES PRODUCE MARKET

Trade was in light volume. Receipts of staples were about in keeping with the demand, with the exception of eggs, receipts of which were light. Changes in quotations were few. Butter was advanced 1½ cents on creamery extras, and firsts were quoted one cent higher. The quotation on creamery extra stock was placed at 34½ cents a pound. Firsts sold at 30.

In deciduous fruits offerings were light. There was considerable hold-over from the previous day of unattractive stock. Good sound stock was fairly well received at full figures.

Apples were about the only fruit that attracted anything like attention, and dealers moved the stock freely at full quotations. Fourteen 1½ bushels were in good call at \$1.50 a box. Receipts were 10,350 boxes.

Orange offerings were light. Only good sound stock was in good call and prices were well sustained. Cornish moved freely at \$1.00 a big box.

Peaches and pears were in poor demand, but offerings were light and what little movement there was was confined to the best stock. Bartlett pears sold at \$2.75 a box for fancy packed stock. The best sold from 65 cents to \$1.00 a big box, according to quality.

Potato arrivals were 3538. The situation was unchanged. Sales were only normal at the prevailing prices.

Onions were in liberal receipt. The market showed no improvement over the previous day. What few sales were made were in small lots. Arrivals were 755 sacks.

The market on sweet potatoes continued dull. Offerings were 232 sacks. The egg market ruled firm under the revised quotations. Offerings were light. Pullet eggs and storage stock were in good demand, and prices on these grades were firmly upheld. Receipts were 85 cases.

The change in the butter situation was due to the light offerings so far this week and dealers having practically no stock in storage to draw on.

The advance was not confined to the best butter, but all grades went up proportionately. Ladies were advanced to 25 cents a pound, and country sold at 23 cents. Receipts were 18,775 pounds.

The cheese market ruled firm on most varieties. Receipts were 2905 pounds.

Roller barley advanced in \$2.00 per hundredweight, and red feed oats advanced.

PACIFIC ELECTRIC RAILWAY COMPANY BEACH SCHEDULE

Effective Oct. 2nd, the following schedule will be operated between Santa Ana and Huntington Beach:	
Lv. Santa Ana	Lv. H. Beach
7:30 a.m.	8:35 a.m.

IN THE JUSTICE'S COURT

CHARGES SIX WITH THEFTS

Sheriff Gets Members of What He Believes Is Gang of Walnut Thieves

Sheriff Ruddock now has an even half-dozen men in the county jail, suspected of being members of a gang of walnut thieves. The specific charge against each of the six is that they stole nineteen sacks of walnuts from Henry Federer of Fullerton on the night of October 25.

Three of the six were arrested Friday. Their names are Joseph Fermin, Charles Levine and Robert Epstein. The walnuts were recovered in the possession of one of these men. Yesterday three more arrests were made in the persons of H. Cohn of Los Angeles and Louis Zelenio and Caspino Orosco, both of Fullerton. Zelenio and Orosco are Mexicans.

Issues Venire

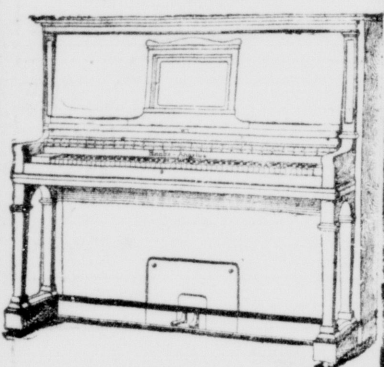

Justice Cox this morning issued a venire for eighteen men for duty Wednesday morning. The court that day is to try P. B. Michel of the S. & M. ranch in the Santiago canyon. Michel is charged with cruelty to animals. It is alleged that he allowed a pen of cows at Northam to go without food or water for two days.

Halloween Party

All Masons and their families are most cordially invited to the Masonic Temple, Tuesday eve at 7:30 to a Halloween party.

Get busy—Moose dance tonight.

MAN EXPOSED TO SCARLET FEVER IS TABOO TO JURYMEN

STOCKTON, Cal., Oct. 30.—Because members of the venire objected to serving on a jury with a man who had been exposed to scarlet fever, Patrick C. Foreman, one of the three jurors sworn to try S. B. Axtell, the Lord editor, for murder, was removed from the panel by challenge this morning. The work of securing ten additional jurors and one alternate juror was continued today.

LARSEN SHOOTS NIAGARA FALLS IN A MOTORBOAT

NIAGARA FALLS, N. Y., Oct. 30.—With only a few spectators watching the trip, Capt. Klaus Larsen yesterday afternoon successfully navigated the whirlpool rapids, the whirlpool and the lower rapids of the lower Niagara river in a fifteen-foot motorboat. The trip was uneventful and required thirty-nine minutes to make the ten miles, starting from the Canadian Maid of the Mist landing to the Anglers' Retreat Dock Lewiston.

JERSEY FARM HERE IS SOLD

Negotiations are about completed for the sale of all of the holdings of J. T. Raitt at the southwest corner of the city. This property is known as the Santa Ana Jersey Farm. The land, dairy equipment and herd are to pass to a Los Angeles dairy company. The price to be paid is over \$100,000.

MENINGITIS CURE IS ANNOUNCED BY DR. SIMON FLEXNER

NEW YORK, Oct. 30.—Simon Flexner, director of the Rockefeller Institute for Medical Research, announced recently to the annual conference of sanitary officers of the state in Carnegie Lyceum that epidemic spinal meningitis could now be absolutely controlled.

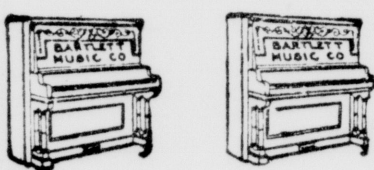

Dr. Flexner said the cure had been perfected through the discovery of a new method of using the serum. It is now injected into the cerebral spinal membrane instead of into the blood. "Influenza meningitis in the child," said the doctor, "will, with the application of this new method of treatment, be not one-tenth as dangerous as it has formerly been."

"It has taken a large sum of money and a long time to perfect this cure. This is the first time I have announced it, as only very recently have I demonstrated to my own satisfaction that the serum will do what I claim it will."

Dr. W. S. Magill of the State hygienic laboratory expressed his disapproval of the way in which many physicians were using diphtheria antitoxin.

"Every time we send to a doctor any antitoxin for diphtheria there is a sheet of instructions inclosed," he said, "but out of 100 cases I found only one had tried to follow instructions. Of the 100 cases I looked into, all of the patients died, and in every instance antitoxin had been used, but had not been used correctly."

"The mortality per 100,000 in France from diphtheria is 3 to 4. In this country it is 16 to 17. Why? The case I have just cited about the misuse of antitoxin is a good reason, I think."

AT THE COURT HOUSE

SIX MEN ARE IN JURY-BOX

Special Venire of Twenty-five to Be Returned Tomorrow Morning

Six of the twelve men who will try S. H. Overacker on the charge of killing G. A. Winn were sworn in this afternoon. They are H. C. Page, F. E. Proud, J. N. Martin, J. W. Cade, Henry Diers and Robert Appel.

The prosecution, District Attorney West and Attorney Koepsel, dismissed by peremptory challenge but one man, T. M. Plippen. The defense by challenge dismissed J. L. Knesel, S. E. Evans, Elgin Page, G. F. Havens and O. B. Howard. Three men remain in the box, S. W. Sutton, O. A. Stewart and W. J. Downs, who have not yet been questioned. The venire was exhausted, and an order for a special venire of twenty-five to be returned at 10 o'clock tomorrow morning was ordered by Judge West.

The defense's attorneys are Jud Rush of Los Angeles and B. E. Tarver of Santa Ana. By their questioning it may be concluded that they will use the same double defense employed at the last trial, self-defense and insanity.

Petition Filed

Tarver Montgomery today petitioned for letters of administration of the estate of his father, Attorney Victor Montgomery, who died on October 18. The estate upon which administration is sought is valued at \$100,000. The only real estate being a lot at Coloma. The will was written on July 17, 1898, and the entire estate is left to the widow, Mrs. Charlie Louise Montgomery. B. E. Tarver is attorney for the petitioner.

Marriage Licenses

On Oct. 28—John W. Stuckrod, 32, and Lillian M. Wheeler, 19, both of Los Angeles; Warren Robinson, 22, and Jessie Wulf, 19, both of Los Angeles; Baldwin Reinhold, 28, and Josephine C. Bloedel, 26, both of Los Angeles.

October 30—Charles H. Hall, 40, and Mary A. Ryan, 38, both of San Diego; Alvin Shattuck, 29, of Tucson, Ariz., and Anita Loring, 24, of Los Angeles; Charles H. Taylor, 26, of Tustin, and Nina A. Menges, 26, of Santa Ana; Epitacio Valenzuela, 38, and Agapita Barola, 35, both of Talbert.

TWO LIGHTHOUSES TO BE PLACED ON CHANNEL ISLANDS

SANTA BARBARA, Oct. 30.—Coastwise mariners in the near future will have no cause for fearing the dangerous points on the channel islands that heretofore have gone without government lights, which has resulted in wrecks and fatalities.

Information was sent here yesterday by Commander W. A. Moffit of the Eighteenth Lighthouse Division, with headquarters in San Francisco, that at least two lights and several whistling buoys are to be installed at once.

At Richardson's Rock, one of the most treacherous points on the coast, a lighthouse is to be erected. The light will be visible eighteen miles, as it will be 120 feet high, standing on a tower 70 feet high. An acetylene eclipse light will be used. A whistling buoy will be placed at Richardson's Rock and also one on the west end of San Miguel Island.

Work is to be started at once on an acetylene light on the east end of Anacapa Island. It will also be 150 feet high and visible 18 miles. A whistling buoy is to be stationed near the light.

OCEAN-TO-OCEAN AVIATORS WILL MEET IN TUSCON ARIZONA

LOS ANGELES, Oct. 30.—Robert G. Fowler, flying eastward across the continent from Los Angeles, and Galbraith P. Rodgers, flying westward to Los Angeles, are expected to meet at Tucson, Ariz., tomorrow.

It will be the first meeting of two transcontinental aviators flying in opposite directions.

Fowler is expected in Tucson this afternoon and Rodgers is scheduled to reach the Arizona city tomorrow, when the rival birdmen will exchange greetings.

Yesterday, Fowler flying from Yuma to Maricopa, broke the American endurance record by remaining in the air four hours and twenty-six minutes, breaking the record by eight minutes.

DR. HUGH K. WALKER WILL GO TO ATLANTA CHURCH

Los Angeles Times: Yielding to the importunities of old-time friends in Atlanta, supplemented by urgent telegrams from the Mayor of that city, the governor of the state and other influential citizens, Dr. Hugh K. Walker, pastor of Immanuel Presbyterian church, announced from the pulpit yesterday morning that he had decided to accept the call from the First Presbyterian church of that city.

Piles Cured in 6 to 14 Days

—Your druggist will refund money if Pazo Ointment fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

AVIATION WILL BE FEATURE OF FAIR

SAN DIEGO, Oct. 30.—Aviation and all that pertains thereto will be a special feature of the Panama-California International Exposition if the plans of D. C. Collier, director general, with co-operation of Aviator Glenn H. Curtiss, are carried out.

Curtiss has sent a crew of seven men to the aviation field here and has re-established the school and experimental station for the United States army and navy officers. At the same time his men will begin the study of the meteorology of the Pacific Coast, the stretch between San Diego and Savannah, Georgia, and of the coast line between the United States and the Isthmus of Panama to determine the best and most feasible route for mail carrying lines and for war and navy maneuvers.

As a commissioner of aviation of the Panama-California International Exposition to be held in San Diego in 1915, Curtiss will assist Director General Collier in gathering the most apparatus and exhibits ever brought together. He plans to show a complete history of the development of the art and science of aviation from the time of the first flights in dirigible balloons to the ultimate land-air-water machines, with their latest type of development down to 1915. To do this he will gather men and aeroplanes from every part of the world, France, Germany and England especially.

ARE AFRAID OF INFECTION

Three Residents of North End of County Are Taking Pasteur Treatment

ANAHEIM—Oct. 28.—P. H. Krick and little Marion Flag of this city and Arthur Edwards of Placentia are all making daily trips to Los Angeles in order that they may receive the Pasteur treatment and thus do away with all danger that might arise from the dog bites they received recently. Mr. Krick is a local real estate dealer and is well known throughout Orange County. The residents of this vicinity are greatly alarmed at the number of dogs that seem to be suffering with rabies that are running at large.

The Anaheim sugar factory will close the sugar beet campaign the first of the week. This means that the slicing of beets will cease, but the factory will not shut down for three or four months as the immense quantity of molasses that remains after the best sugar has been extracted and which is stored in large tanks will run through the plant again, and some of it will be run through the third time. This will make a good grade of brown sugar. There will still be some of the molasses left after it has been run through the mill the third time and this will be sold to ranchmen for stock food. Large shipments of the new factory's sugar have been made and there remains at the sugar company's warehouse here 40,000 sacks of the white crystal sweets. These sacks weigh 100 pounds and is worth between \$6 and \$7 per sack.

WOMEN JURY FIRST TIME

In Watts, on Thursday next, women will serve as jurors for the first time in Los Angeles county, if not in the state. Constable George Morrison reported to Justice Cassidy yesterday that he had no difficulty in securing the names of thirty-six women who were willing to have their names recorded on the panel.

"I worked only a few hours in completing the panel," Morrison reported. The case in which twelve women will be called upon to give a verdict is one in which they are peculiarly interested as mothers and as advocates of clean journalism. It is that of the people against A. A. King, publisher of the Watts News, against whom a complaint was issued by Deputy District Attorney Graham charging the publication of obscene and indecent matter.

Cod Fisheries Remunerative
The catch of cod in the United States is third in value of fish caught, amounting to almost \$3,000,000, followed by that of shad, lobster and clams.

ITALY'S TROOPS IN HAZARDOUS PLACE

Reinforcements Rushed in Response to Hurray Call in Tripoli

ROME, Oct. 30.—The situation of the Italian troops at Tripoli is exceedingly hazardous, according to uncensored dispatches reflecting here from the scene of fighting, and a hurry call for reinforcements to relieve troops there has been granted.

Details are lacking, but fear is entertained that another battle has been fought with heavy losses to the Italian arms.

IT PROPOSES NEEDED LAWS

Council of Education at Chico Was Attended By Local Man

City Superintendent of Schools J. A. Cranston returned at noon today from Chico, where he attended the meeting of the State Council of Education. The sessions of the council were taken up with reports of committees on matters upon which it has been suggested that legislation is needed. The object of the council is to prepare bills and work for the passage of needed legislation. It is composed of thirty-five members, selected on a basis of one member for every three hundred teachers. The Southern California Teachers' Association has eleven members. Superintendent Cranston is one of the nine members of the board of directors, the other two from this end of the state being Prof. Keppel of Los Angeles and Prof. McKinnon of San Diego.

One of the committees made a report on the need of better supervision of the rural schools of California. Another report on the readjustment of the courses of study and the certification of teachers. One of the committees stated that a change is needed in the personnel of the state board of education, which is composed of the governor, the president of the University of California and the heads of the various normal schools. The council of education thinks that the county superintendents, the city superintendents and the principals of high schools should each have representation on the state board. Another question of importance discussed was that of taking the control of the health regulation of schools out of the hands of boards of health and placing it in the hands of the boards of education.

The bills to be presented to the legislature will be formulated a year from now.

Dance tonight Moose Hall.

"WET? NOT YET" SAYS IMPERIAL

Imperial city voted "wet" a few days ago. But a saloon will not open its doors without a fight and it may be months before a thirst-quenching establishment will have a chance to cater to the appetites of the Imperialites.

A large faction of the business men of the city are opposed to an open saloon. Practically all of the land in the city has been deeded with a prohibition clause in the deeds. And the women are registering in anticipation of another election as soon as the question can in any way be made an issue.

The original owners of the townsite say they will fight any attempt at violation of the prohibition clause in the deeds. A large number of the business men are now asking the trustees to refuse to issue a license on the ground that the "wets" only carried the election through the voting of a large number of "floaters" who have no real interest in the welfare of the city.

A number of "wets" withdrew their deposits from one bank that was known to be "dry" and offered them to the other bank in the city. It was promptly refused, on the ground that it was practically a bribe, and the second bank is also opposed to a licensed saloon.

So the liquor interests are beginning to feel that their "victory" is an empty one. The end is not yet, and no effort will be overlooked by the law and order people of the valley to prevent the establishment of the first saloon in that vicinity.

IRELAND REFUSES TO TALK OF THREE NEW CARDINALS

ST. PAUL, Minn., Oct. 30.—Archbishop Ireland, when notified of the announcement that Archbishops Farley of New York and O'Connell of Boston and Diomedes Falconio, papal delegate to the United States were to be created cardinals November 27, refused to discuss the subject.

It had been known for years that Archbishop Ireland had been considered in line for the red hat. That he was disappointed when shown the telegram announcing the selection of Archbishops Farley and O'Connell was not evidenced by the expression of his face. He read the telegram, handed it back, and said:

"I have nothing to say regarding the matter."

FRICITION BETWEEN MILITARY AND CIVIL PARIS OFFICERS

PARIS, Oct. 30.—It is evident that the army of the French consul, the vice consul and the customs officer at Oudjda, which is still somewhat of a sensation in Paris, is the outcome of friction between the military and civil authorities, the presence of the latter in newly occupied territory still under military regime being anomalous. General Toutee has withdrawn the accusation of contraband dealings and is maintaining the charge of insolent behavior. The government will send a special commission to investigate the matter.

Get busy—Moose dance tonight.

WHY IS GAS TODAY SUCH A UNIVERSAL FUEL?

People used gas in the old days, it is true; but it was then a luxury.

Today gas is recognized as a necessity.

With gas at

\$1 Per 1,000 Cubic Feet

no other fuel can compare with it for cooking or heating.

For a short time we will install a first class

Range With all Connections for \$24

cash or installments.
